Sir,

One of the complaints in the press that's getting a lot of play is PFC Manning's MAX custody status. I thought that just like a competent doctor who has confidence in his own work would recommend that a patient get a second opinion before a major surgery/treatment that having Army Corrections take a second look at the custody classification of Manning would verify that Quantico brig got it right.

I will wave Mr. Stroebel off first thing in the morning if you don't want this any more.

Gents

Spoke with Col Choike today about Mr. Stroebel's visit tomorrow. Given the recent email from Carlyle Shelton stating that both the USA IG and USMC IG are satisfied with the package they have been provided, with regard to Manning, we no longer feel that a visit/independent assessment from Mr. Stroebel will provide any value. If he is looking at our facility as part of an assessment/validation of our capability as a PCF then we will gladly accept his visit. If he is coming to only look at actions with respect to Manning then we request that the visit be canceled. Please advise if there are any questions.
