**Subject:** Weekend visitation/calls to Brig

DBS's with the new changes I made IRT detainee Manning not keeping his underwear at night comes a lot of disdain from others who support detainee Manning. Continue to be vigilant and prepare for verbal attacks on the phone or at visitation from now on. Things will heat up so continue to be professional and refer calls regarding his status to PAO. Document,document, document. If you have to turn away an unruly visitor then do so. Thanks for continuing to make us look good.
