Signed By: (b) (6) [redacted]

Sir,

I just spoke with Mr. Shelton, from CMC's IG office. Quantico brig should expect a dual visit from Marine Corps and Army IG offices sometime next week. Detailed coordination to follow. CWO5
Galaviz and I will also be present for the visit. OSD visit will be tentative, pending outcome from the MCIG/AIG visit.

Also just an FYI, Gen Casey and Gen Amos will probably have a conversation about Manning soon, if they haven't already had it.

PSL is working the MC Public Affairs on a press release, method/venue is being worked right now. Release will be coordinated with all interested parties before we pull the trigger.

V/R
LtCol Wright

LtCol Wright,
Here is the copy of the MCBQ Deputy IG report that was sent to CG MCCDC last week. I still believe that a visit is warranted as requested by Mr. Geoffroy and LtGen Flynn; specifically, as highlighted in a previous email attached above. Need your support in encouraging that this visit takes place. If you see the possibility fading, I need to know so I can inform my boss, LtGen Flynn. Standing by to coordinate a date or discuss this further, if canceled.

Sir,

I spoke with COL Shumake (OSD) yesterday. He thinks that reviewing the results of the Quantico IG visit last week may preclude the need for an in person visit. Can I tell him when to expect the info report?

V/R
LtCol Wright

LtCol Wright,
Appreciate the update and additional set of eyes/interest. On Monday, I had my own IG make an unannounced visit to the brig and once I send that info report to the 0CG MCCDC, I'll provide a copy as a read ahead for the OSD/Chair, DOD Corrections Council visit next week. Additionally, we are working on an info paper that outlines all the stated concerns from discussion, visits and inspections over the past couple weeks and have prepared a brief for MGen Hummer on 4 Jan. He is the new DCG, MCCDC and was scheduled for an org brief and we are adding this case as a discussion topic.

Standing by to coordinate the scheduled visit.

Col Choike,

Sir, per our (PSL) request, COL Shumake (Chair, DoD Corrections Council) has agreed to conduct a courtesy visit at the Quantico Brig. This is not an official inspection. It is primarily an opportunity for him to see the confinement conditions/facilities at Quantico. Since the PFC Manning case continues to draw international attention I believe it wise to have as many people possible, in their official capacity, be witness to the conditions PFC Manning is subject to so they can personally attest that he is being treated in accordance with regulations.

COL Shumake said his schedule is fairly flexible next week. If you are available I'm sure he'd like to conduct the tour with you.

Vaughn -- Concur that we should be ahead of the disinformation campaign. The treatment that PFC Manning is receiving as a maximum confinement detainee is in accordance with the American Correctional Association (ACA) standards and is no different than what a maximum confinement prisoner in the Bureau of Prisons (BOP) would receive.

We are coordinating with PA and developing a FACT SHEET that will do a side-by-side comparison of the standards we are following with the DoD/ACA/BOP protocols. We have been coordinating with OUSD P&R (who has DoD Corrections policy) and recommended that they conduct a visit to Quantico next week and endorse the care/treatment that PFC Manning is receiving. They concur and we will be coordinating this with MCB Quantico. We have also discussed this with the Army and have asked them to come along and verify the treatment/care as well.

I would recommend that Bryan coordinate with OSD PA for any formal publication/announcement of the above.

Regards,

Jeff

Subject: PFC Manning and the Quantico Brig

Jeff,
LtGen Flynn called today asking about PFC Manning and the recent press articles speculating about PFC Manning's treatment at the Quantico Brig. Although LtGen Flynn has the utmost trust and confidence in the way the brig is being run and that PFC Manning's treatment meets DoD standards, he would like to be proactive and see if there are a few steps we can take to ensure we hold the moral high ground if the issue starts to take hold in the press. If we do nothing, we would probably be left with a statement that "we are following SOP." He is looking for ideas to show we are aggressively working to ensure Manning is receiving the care and treatment to which he is entitled so that we have a better response.

I believe he has a point and that the story may get additional press interest, especially given the suicide of Capt Webb at Quantico and the other sailor in pretrial confinement at Pendleton last year. MajGen Lehnert was also an advocate of the open kimono approach to our treatment of detainees at GTMO -- an approach that was very successful in the early days of that issue.

I was hoping to get your thoughts about bringing in an outside team from the DoD Executive Agent for the brigs (Army?) or someone to give us a clean bill of health or recommendations on handling Manning while in pretrial confinement. Again, LtGen Flynn is confident we are doing everything right -- he just wants to make sure everyone else agrees from a strategic messaging standpoint. I'm available to discuss.

Happy holidays and talk soon,
V/r,
Vaughn
