REPORT OF BEHAVIORAL HEALTH EVALUATION
CLASSIFICATION AND ASSIGNMENT BOARD

NAME (Last, First, MI): MANNING, BRADLEY | SSN: (b) (6) [redacted] | RCN:

REASON FOR BH EVALUATION

SUICIDE WATCH | PREVENTION OF INJURY | OTHER:

MENTAL STATUS EXAMINATION (CHECK ALL THAT APPLY)

BEHAVIOR: HYPERACTIVE | NORMAL | PASSIVE | AGGRESSIVE | HOSTILE | SUSPICIOUS | BIZARRE

LEVEL OF ALERTNESS: FULLY ALERT | DULL | SOMNOLENT

LEVEL OF ORIENTATION: FULLY ORIENTED | PARTIAL | DISORIENTED

MOOD AND AFFECT: UNREMARKABLE | FLAT | DEPRESSED | LABILE | MANIC OR HYPOMANIC

THINKING PROCESS: CLEAR | CONFUSED | BIZARRE | LOOSELY CONNECTED

THOUGHT CONTENT: NORMAL | ABNORMAL | HALLUCINATION | PARANOID IDEATION | DELUSIONS

MEMORY: GOOD | FAIR | POOR

*EXPLAIN ANY ABNORMAL FINDING IN REMARKS

FINDINGS

MENTAL DISORDER IS: RESOLVED | IMPROVING | STABLE | DETERIORATING | N/A

RISK FOR SUICIDE/SELF-HARM IS: LOW | MODERATE | HIGH

RISK FOR VIOLENCE IS: LOW | MODERATE | HIGH

BEHAVIORAL DISTURBANCE: IS | IS NOT DUE TO A TREATABLE MENTAL DISORDER

INMATE: DOES | DOES NOT NEED TO BE SEGREGATED FROM GENERAL POPULATION DUE TO A TREATABLE MENTAL DISORDER

NEEDS FURTHER EXAMINATION: WITHIN 24 HOURS | WITHIN 72 HOURS | ROUTINE | N/A

OTHER (See Remarks)

REMARKS: Service Member's emotional and behavioral presentation significantly varys from that observed by myself and by the facility staff. Facility staff note increased social isolation, paucity of words during verbal interactions, poor eye contact, and reduced decorum. Facility staff state behavior is atypical of that observed of other inmates. Facility staff note possible correlation between recipt of additional charges, 706 proceedings and his changed behavior. History of severe adjustment disorder with suicidal thoughts. Due dilligence for self harming behavior is not unreasonable given his change in behavior. Necessary reassurance of safety is difficult to achieve if SM chooses not to communicate with facility staff. I can not recommend changing his PoI status given his behavioral change. Axis I: Adj D/O disturbance in conduct Axis I: Deferred Axis II None.

EVALUATOR: Axis IV: incarceration Axis V: 55

*EXPLAIN ANY ABNORMAL FINDING IN **REMARKS**

FINDINGS

MENTAL DISORDER IS:	RESOLVED	IMPROVING	STABLE	DETERIORATING	N/A
RISK FOR SUICIDE/SELF-HARM IS:	LOW	MODERATE	HIGH		
RISK FOR VIOLENCE IS:	LOW	MODERATE	HIGH		

BEHAVIORAL DISTURBANCE: **IS** **IS NOT** DUE TO A TREATABLE MENTAL DISORDER NA

INMATE: **DOES** **DOES NOT** NEED TO BE SEGREGATED FROM GENERAL POPULATION DUE TO A TREATABLE MENTAL DISORDER Defer to Command NA

NEEDS FURTHER EXAMINATION: WITHIN 24 HOURS WITHIN 72 HOURS ROUTINE N/A

OTHER (See Remarks)

REMARKS:

SM not a danger to self or others. Denies depression. Denies negative symptoms of depression. No anxiety reported. Denies any Health issues. Brig Psych providing reasonable restrictions which do not cause any mental anguish. Discussed plan with staff.

Axis I None Axis II: None contributing Axis III: incarceration, intimacy/relationship/social distances

Axis II Histrionic personality structure, Narcissistic traits (personality) Axis V 41

Plan: (1) Service Member creating distance between himself and staff. Despite reasonable expectations SM can not comply to provide staff with reassurance of safety. Will likely find reasons which prevents him from complying. Will blame staff for his non compliance due to "unreasonable" or the perception of unreasonable demands. Will likely find other "unreasonable" demands despite command efforts (Brig)

(2) Discussed with the SM what he needs to do to comply. Replace responsibility onto the SM.

Recommendations: Continue with current plan and encourage compliance. Behavior will likely persist.
