Leaders,

Due to the seasonal change and drastic changes forth coming in the weather, Maximum custody prisoners will be authorized an INDOOR 'sunshine call/recreation call' on inclement weather days e.g. constant rain, 32 degrees or below, snow or ice on the deck. The indoor event for maximum custody will be conducted in handcuffs only. The individual (MAX) will be escorted to the dorm in full restraints and will have the belt and legs irons removed once in the dorm. Handcuffs reapplied after the belt is removed. At no time should the individuals hands be free while in the dorm. The two escorts and the DBS will be present for the INDOOR activity. Dorm hatch will remain closed at all times. Master Control Camera will be on in that dorm during the activity. Bike is acceptable with handcuffs / treadmill is not. If you have a question about other equipment, SAFETY IS PARAMOUNT, ASK.

First let me define the difference between REC CALL vs. SUNSHINE CALL - Rec Call is conducted for ALL individuals that are not on Suicide Risk and/or Prevention Of Injury. Sunshine call for SR and POI will be determined according to their handling letter.

Second - Let me clear up several confusions between CUSTODY vs. STATUS - Custody will dictate the proper use of restraints according to SECNAV 1640.9C (READ IT) and will be noted on their handling letter. Ensure special quarters supervisors are READING THE HANDLING LETTERS.

Example - Detainee Manning is a 20 min sunshine call because he is on POI.
Example - (b) (6) [redacted] is an hour of recreation call because he is a normal MAX on ER.
Example - (b) [redacted] e is an MDI on LOP and should be escorted according to custody. This means no restraints - LOP and DS do not require restraints unless programs has determined that the individual should....It will be noted on the HANDLING LETTER.

DUTY BRIG SUPERVISORS - You hold a position that is normally held by SNCO's - who have an excellent working knowledge of the Correction Manual - when was the last time you looked something up in one or even picked one up?

The subject of Detainee Manning comes up more often than you think. It's on the internet, it's on the news and it's in our hands so long as he is confined in this brig. You must ensure that you are following procedures correctly.

Respectfully Submitted,

Master Sergeant Papakie, B. R.
Quantico Brig, Security BN
Brig Supervisor
