Sir he is the doc from OCS who comes over to support us that's why I responded. He sees all inmates not just manning.

Good afternoon sir, I appreciate the concern. He has been briefed by me and my predecessor on occasions too numerous to count on asking for extra rec call or anything for that matter. I have spoken to him in the absence of staff and he never asked me for extra rec call. Correspondence time went from 1 hour to 2. We can certainly work something out. As a matter of fact he refused rec call one day this past weekend. I am willing to sit down soon Sir if there are more questions. thanks.

Hello,

HM3 Dodson and I stopped by yesterday to see you but you were not in the building. I'd to recommend that you allow PFC more time outside of his cell. He has been here for many months now and it's very hard on him getting only an hour outside his cell. I understand that you may have your own constraints, but we don't even know how much longer he is going to be at the brig. I strongly believe that more time outside his cell would be very therapeutically beneficial for PFC M.

Please let me know. I am looking forward to hearing back from you.
