Subject: RE: DET MANNING WEEKLY PROGRESS REPORT
Signed By: (b) (6) [redacted]

Team,

Medical Clinic Update through 15 October 2010:

1. Detainee seen by Naval Health Clinic Quantico Mental Health provider, CAPT Hocter on 12 Oct and 15 Oct 2010. Planned visit on 22 October 2010. Detainee remains stable and adjusted to routine. CAPT Hocter continues to recommend removal of POI precautions, but defers to brig for determination of status according to brig protocol. CAPT Hocter has also recommended that detainee be allowed opportunity to exercise in cell as he has noted a decline in physical conditioning in detainee over past weeks.

2. Contingency plan for Mental Health provider coverage has been activated in the event of CAPT Hocter's absence and unavailability. We have a qualified civilian contractor who will have their position description modified to enable them to provide services at the Brig when needed.

Respectfully submitted,

CAPT Mary E. Neill, DC, USN
Commanding Officer
Naval Health Clinic Quantico
(b) (6): [redacted]
