Hi, Rob,

Pfc. Manning's supporters are expressing dismay over the conditions of his confinement. Can you please provide answers to these questions:

2. How much time does Pfc. Manning spend confined to the cell?

3. Is Pfc. Manning still single-celled?

4. Is Pfc. Manning still on suicide watch?

5. To what extent does his suicide-watch status relate to his confinement conditions such being single-celled and hours of confinement?

6. what exercise opportunities is Pfc. Manning afforded?

7. To what extent do his confinement conditions differ from those if detainees in the general population?

Please respond ASAP and thanks,

Dave
