1. The following action is recommended for subject:

Custody:	Squad Bay:	Job:
MAXIMUM	SQ-1	POI

- [ ] Inmate DOES pose a threat to himself
- [x] Inmate DOES NOT pose a threat to himself
- [x] Further mental evaluation IS necessary
- [ ] Further mental evaluation is NOT necessary
- [ ] Inmate DOES NEED to be segregated from general population
- [x] Inmate DOES NOT need to be segregated from general population
- [x] Inmate has a LOW TOLERANCE of frustration / stress
- [ ] Inmate has an AVERAGE TOLERANCE of frustration / stress
- [ ]
- [ ]

Medical Officer's Remarks:

Remains at moderate risk of self-harm, which is improved since arrival, would not require a higher level of psychiatric care to mitigate risk at this point. Requires routine outpatient follow-up. Frustration tolerance has improved but still somewhat below average, limited ability to express or understand his feelings. Risks and benefits of POI are not further detrimental at this time.
