Hello there Dr. Mehlhorn,

I have a few questions in order to proceed with executing the funds from the Office of Basic Research. Could you please forward me your financial POC? The questions I have are noted below.

1. Who will be the main Technical Point of Contact at NRL
2. Who will be the Financial Point of Contact at NRL
3. Will funds be sent reimbursable or Direct Cite? (In other words, will the work be done in house at NRL or will you contract the work outside the government?)

(Please see highlighted in the SOW, attached).

Thank you for your time and have a great day.

Very Respectfully,

Financial Management Analyst, Office of Basic Research
Office of the Assistant Secretary of Defense for Research and Engineering
4800 Mark Center Dr., Ste. 17C08

Subject: Draft SOW for LENR report/briefing

Robin,

Attached is a draft SOW to get the ball rolling. The most important thing is for your Admin to talk with my AO (Ms. [b](6)) to arrange to get the MIPR going so that we can legally start the project under Working Capital Fund rules.

Make any changes that you feel necessary, or just get the MIPR going and we'll dive in (they're already ramping up). We'll keep you in the loop and make sure that we jointly develop the briefing that you need.

R/ Tom

it is very likely that our report will be noticed. But, if we wanted applause, we would have joined the circus.

Robin
