CC-247 Tolson Ladd Clegg Glavin Nicha Rosen Tracy Harbo Mohr_ Tele. Room B ZNease October 27, 1949 Gandy MEMORANDUM FOR MR. D. M. L RE: RUMORS CONCERNING REPLACEMENT OF ADMIRAN HILLENKOETTER, DIRECTOR OF SIA

While discussing IAC matters with Admiral Hillenkoetter, he voluntarily advised Agent DeLoach that he had paid a call to President Trunan yesterday morning, October 26, 1949, after hearing an 8:00 a.m. news broadcast reflecting that he is to be replaced by former Undersecretary of State Robert Lovett. He indicated that the President had advised him that there was no truth whatsoever to the runor and that Hillenkoetter would undoubtedly remain as Director of CIA for a long period of time.

The Admiral continued that three weeks ago he had contacted Mr. Lovett and asked him point blank if there was any truth to the rumors about his assuming the Directorship of CIA. He stated that Mr. Lovett advised him at that time that "he wouldn't have the job even if it were tendered to him."

Hillenkoetter indicated that this was the second time he had been to see President Truman about this matter. He stated that the President on both occasions had definitely assured him of his continuing on as Director of CIA.

NOTITE ST

RE: DREW PEARSON Information Concerning

General Bolling advised Mr. Reynolds in extreme confidence that he was visited on November 2 by a Mr. Blumenthal, who professed to be an employee of Drew Pearson. Blumenthal indicated to General Bolling that Pearson had received information that the Army had a group of soldiers working in the German Military Document Section. These soldiers were captured Germans who have applied for American citizenship and who now are enlisted men in the Army. It was alleged that certain of these individuals are malcontents and have been alleged to have stated that they were tired of the United States; they preferred Germany; they preferred living under the Hitler Regime, and remarks of a similar nature. Blumenthal indicated to General Bolling that his purpose for calling was to verify whether or not the Germany Hilitary Document Section was a part of the Intelligence Division, since Mr. Pearson intended to use this item on a broadcast, Sunday afternoon, November 6.

General Bolling advised Mr. Reynolds that he told Blumenthal that the German Military Document Section is not a part of the Intelligence Division. He also told Blumenthal that he intended to immediately institute an investigation of this matter and elicited a promise from Blumenthal that as long as the Army intended to do something about these allegations, that Pearson would not use the story on his broadcast.

General Bolling advised Mr. Reynolds further in confidence that Blumenthal had told him that

TIN, PHILADELPHIA, MONDAY, OCTOBER 31, 1949

Infant American Spy System Is Beginning to Get Results

plete surprise atom-bomb attack port on changes made as a result on the United States? One reply can be given confidently: This Gov- is divided into five major offices. ernment is now using its eyes and ears as it has never done be- lection of information. They do it reviewed by the director of CIA. If fore in time of peace.

The American spy system, although still in its infancy, is robust monitoring foreign broadcasts. and growing. Men who have had the opportunity to study it close up say that if it had been in existence in 1941 the Japanese probably maintains a vast index system of would not have succeeded in their facts and photographs on foreign attack on Pearl Harbor.

It has plenty of growing pains, but it entered the field of international snooping hundreds of years after other great powers. And espionage in the atomic age is infinitely complex.

Only Part of Job

The American cloak-and-dagger men now working noiselessly and invisibly throughout the world are doing only a fraction of the job.

Experts in commerce and industry, doctors, economists and scientists extract some of the most valuable information from innumerable sources wide open to the public, such as foreign books and technical reports.

A. P. Wirephoto ss since babyhe Boy Scouts, Jđe

Honor

ck Hotel. off, president of Appeal, recently our of Israel, will ration's work in ries, housing and committee.

The most exacting job of all lies with the few men at the top who must evaluate the information-decide what all the facts reveal about the strength and intentions of foreign powers.

Has 5 Major Parts

The set-up of the American intelligence system, known as the Central Intelligence Agency (CIA), was described in some detail by a task force report of the Hoover

Since its release, the director of

Washington, Oct. 31-(AP)-|CIA, Rear Admiral Roscoe H. Hil-Could some nation launch a com- lenkoeter, has given Congress a re-

The Central Intelligence Agency

Three are charged with the colby espionage in other countries, by examining foreign documents and CIA's five monitoring stations hear an average of 2,000,000 words a day.

A fourth unit is the Office of Collection and Dissemination. It industry, science, personalities, etc.

The fifth unit is the office of reports and estimates. Its job is to evaluate intelligence and prepare intelligence reports for the President and other officials concerned with high policy.

It has six regional branches covering geographical areas and four concerned with economics, science;

ADVERTISEMENT More Comfort Wearing FALSE TEETH says Mrs. A. W., San Antonio, Texas

Here is a pleasant way to overcome loose plate discomfort. FASTEETH, an improved powder, sprinkled on upper and lower plates holds them firmer so that they feel more comfortable. No gummy, gooey, pasty taste or feeling. It's sikoline (non-acid). Does not sour. Checks. "plate odor" (denture breath). Checks ."plate odor" (denture breath) Get FASTEETH today at any drug store.

Druggist or Agent. (Needed in Every Medicine Chest)

and international "cover" transportation organizations.

The regional branches assemble raw material from thousands of cables and reports supplied by the State Department, the Defense Departments, CIA's own clandestine agents and from various other U.S. agencies which have missions overseas.

Reviewed by Higher-ups

The regional branch makes an "intelligence estimate." This is the material is controversial, it is reviewed by the highest intelligence tribunal of all, the Intelligence Advisory Committee (IAC).

IAC is composed of the principal intelligence officers of the State, Army, Navy and Air Force departments, the Joint Chiefs of Staff and the Atomic Energy Commission.

Some CIA agents work in other government departments as

STANDARD FORM NO. ndum • Ce UNITED STATES GOVERNMENT DATE: December 9, 1949 FROM V. P. KE SUBJECT: REQUEST OF ADVIRAL HILLENKOETTER FOR COPY OF CORRESPONDENCE RELATIVE TO PROSPECTIVE APPLICANTS hielligence Ugenc While discussing other matters recently with Admiral Hillenkoetter, Director of CIA, he advised Agent De Loach that CIA was

experiencing serious difficulties in replying to various Congressmen who desired to place personnel in CIA. He stated that CIA had also been criticized as to the abrupt manner in which they replied to letters of prospective applicants. He desired to ascertain if he personally could ye furnished with copies of correspondence that the Bureau had transmitted to applicants for positions with the FBI. In brief, Admiral Hillenkoetter desired to ascertain the correct manner for "brushing off" an individual.

Agent De Loach advised the Admiral that his request seened a little unusual; that the FBI had no set manner or definite trend in the way applicants were "brushed off." He was advised that each applicant is considered individually and separately according to the merits of the prospective employee. He was additionally advised that the FBI has a set standard, such as the applicant being a member of the Bar, graduate of an accredited law school or a CPA with three years business experience.

The Admiral seemed to understand the above remarks. It is believed there is no need for any further action regarding this matter.

Reds Planned Early to Divide & Rule Unions

By PETER EDSON

There is no more clearly-defined front in the conflict between left and right today than in the field of American labor. The CIO particularly knows it is in a fight, with no fewer than 10 unions doing their level damnedest to retain Red-influenced leadership

This is no new struggle. Like every other aspect of the Communist war, it dates back to the earliest times of the movement in this country; specifically, to the days before World War I.

Then Nicolai Lenin and Leon Trotsky were in America, primarily as political refugees, secondarily as explorers of another land possibly ripe for Marxism reform.

They believed that to rule the vorkingman was to rule the nation. This was the essence of what was then called Bolshevism. When

the Russian revo

lution had elimi-nated the Czar,

the American.

Communist Par-

ty immediately set about_to seek

the destruction

of American la-bor, by disinte-grating the AFL.

Samuel Gomp-ers, AFL head, was so alarmed

at the wave of

Mr. Edson

against Big Steel and the 12-hour day, and in the case of the Boston police who created a reign of terror by their strike for higher pay-that he hurried home from Paris, where he had been advising Prestdent Wilson at the peace conference

"Wilson's return found labor so rebellious that he called a conference of management and union ence of management and union leaders. Labor's demands were made by Gompers: the eight-hour day, right to organize, collective bargaining, free speech and a minimum wage. U.S. Steel flatly refused to bargain; the Gomper forces walked out. COVINIE

CONLUMENTS FOOTHOLD Commiss were made happy by this. A million, or one-fourth or membership, quit organized labor. The Communists quickly organized unions to gobble up as many of these renegades as possible

The AFL first tried to get rid of the Communists who sneaked in in 1919 and 1920 when, in 1926, it of the Reds in such craft unions as the painters and the miners were driven out. But no headway could be made among the fur, needle-work, shoe and leather unions.

- "THE BUTCHER SHOP"

In that very year Ben Gold, who admittedly was and admittedly still is a Communist, led a bloody strike by his United Fur Workers. Goon squads swept thru the New York fur district, breaking up more than 50 contract shops, bribing police who half-heartedly tried to curb them, and operating a torture chamber called "the Butcher Shop." Gold, incidentally, is still boss of the furriers.

Other great strikes of the period were those of the coatmakers, esti-mated to have cost \$35,000,000 ex-clusive of the split skulls, and at Passaic, N. J., where the Botany Mills were closed for more than a year.

After the crash in 1929, Communism gained some stature and was able to work more openly at organizing labor. Opposition to the leftists within union ranks, sapped by the depression's ghastly unem-ployment, virtually collapsed. Observers generally agree that for the 15 years between 1929 and the last months of the war, Communists had almost a free hand.

BACKED JOHN L.

Communists supported John L Lewis when he led the United Mine Vorkers out to form the CIO at

Thirty years ago, Communism was a gag to many an American—a Thirty years ago, Communism was a gag to many an American—a cartoon of a dirty, wildly bearded man with a round black bomb. To-day it is no longer a gag. In the S0 years between, the United States has fought a strange and stormy war with a movement dedicated to our nation's overthrow, but a generation has grown up only vaguely aware of how the fight began or what it means. Peter Edson turns the spot-light on that S0-year war to give a revealing picture of how the Com-munist Party established itself on U.S. shores, what's behind the cur-rent trials, and where the fight may lead. This is the fifth of 12 dis-natches. patches.

the tumultuous AFL convention of 1935. They quickly moved into the American Newspaper Guild, formed the year before, and when the new union affiliated with the CIO the job was made easier. By 1940 pinks dominated the Guild, with most of the support coming from the New York locals.

labor union movement and to control of American public opinion as well. But by 1944s member-by a referentiaged the first Comshipnist housecleaning by an American labor union.

At the peak of their power in the 40 American international unions, Ten years later they could claim control of only a dozen. They were the CIO internationals that supported Henry Wallace for President.

These represented a member fifth of the CIO's total. Only a fraction of 1 per cent of this number could be counted as actual Communists. But at is 1949 national convention, the CIO moved de-cisively to kick them all out and start over fresh with a clean anti-

of the left-wing unions-was expelled outright and its President Albert Fitzgerald kicked off the CIO executive committee. So was the Farm Equipment Workers,

and the second

other 10 unions and nine of their leaders, with expulsion likely: Harry Bridges of the Longshoremen; Hugh Bryson of the Marine Cooks; Donald Henderson of the Food and Tobacco Workers; Joseph Selly of the Communications. Assn.; J. F. Zurich of the Fisher-men; Abraham Flaxer of the Public Workers; John Clark of the Mine-Mill Workers, and James Durkin of the Office and Professional Workers. The Fur and Leather Workers'

union was ordered tried, altho its president, Berl Gold, was not be-cause he admitted being a Communist and GIO President Philip Murray ruled him ineligible to hold office on the Executive Board.

hold office on the Executive Board. This, wholdsale purge of the American layor movement is in line with Compresident Philip Murray mumber of the foreign Murray mumber of the foreign policies of Soviet Russia by gain-ing control of unions, spreading dissension, cleating chaos. This is the program which real American we kingmen and women have finally been awakened to re-lect as oppoad to their own best interests.

interests.

TOMORRAW: Congress and the courts vs. Communism.

Cervix Crucer Treated With Ray pactive Cobalt

By Science Ser

women with cancer of the cervix (neck of the womb)," have during the past year been treated with cobalt made radioactive in the Atomic Energy Commission's pile at Oak Ridge, Tenni

The results are expected to be slightly better than those that would be expected if radium had been used, altho it is too soon and too few patients have been treated to be sure of this. The treatments are being given

under the direction of Dr. J. L. Morton at Obio State University. Development of the radiocobalt was done by Dr. William Myers, physicist and physician, who is a special fellow at Ohio State.

By TOM DONNELLY

"THE WASHINGTON DAILY ADVERTISER had reported on June 11, 1800, that the State, War, Navy and Post Office departments—all but the Treasury—had been moved from Philadelphia. It sounded impressive, but the total number of em-ployes was only 131."

Nuggets like this turn up from time to time in "The Potomac" (Rhinehart), an ambling history of our local river which should have considerable appeal for Washing-tonians who have any community spirit at all.

Author Frederick Gutheim packs in everything: the booming days of "the tobacco civilization"; John Brown; Gettysburg; Abigail Adams writing on the White House in 1800 ("We have not the least fence, yard, or other convenience, with-out, and the great unfinished audience room I make a drying room of, to hang up the clothes in"); a study of the growth of Washing-ton (usually labeled "astonishing"); and a prediction that the capitol will become, in a century, "a rurban city," the larger portion of which "would flow up in the Potomac in thin ribbons of settlemont, with lateral lines of development branching from the Potomac up the tributary valleys."

This is the 40th volume in the Rivers of America series. I can't imagine anyone plowing thru all 40, but, as I say, "The Potomac" should please the special public waiting for it in these parts.

usually don't respond to novels I which can fairly be labeled "folksy," but Ben Lucien Burman is several cuts above the standard specialist in rustic humors, and his latest effort, "Everywhere I Roam" (Doubleday) is a fresh and lively

There isn't much in the way of There isn't much in the way of plot. An elderly Cumberland moun-taineer, appalled by the belching steel mill which threatens at any moment to expand all over his homestead, loads his family on a wickolv wagon and sets out to find rickety wagon and sets out to find if there's a spot in the country, where people still live decently, the way they used to at the time of the St. Louis Fair. "Tye read plenty, and I've talked to plenty of people," Mr. Burman's hero says, "and way everybody says, ever since the Exposition things has been going down and down." 'The old man doesn't find his gap rickety wagon and sets out to find The old man doesn't find his gar-den spot, and what with one thing

boy for railroading. He does get to ter to distant receivers.

see quite a lot of the South, tho, and has some fine comic adventures when he tries to operate a touring show which offers an apathetic public a baby alligator, Gila monster, a rattlesnake, and a decaying parrot barely able to whistle "Yankee Doodle."

"Everywhere I Roam" is a modest effort, to be sure, but its inno-cent pathos and gentle humor are most attractive.

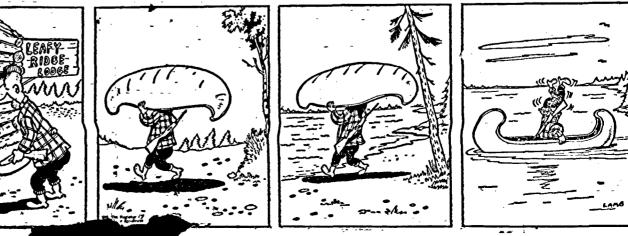

T was inevitable that the huge success of "White Collar Zoo" would inspire a sequel. It is only slightly less inevitable that the se-quel "Home Sweet Zoo" (Doubleday) should not be as funny as the original. After all, very few jokes get better the second time around. Even so "Home Sweet" Zoo" is sufficiently droll to be worth your attention. Once again Clare Barnes Jr. has coupled animal pictures with typically human bits of dialogue. My favorite en-try is a semi-submerged polar bear try is a semi-submergen point ocal crying "Maybe you'd better phone the plumber after all, dear," but I also find all the pictures deal-ing with cats uproarious.

Chart Paper Printed by Electric Discharge

By Electric Discharge By Science Service NEW YORK—Chart paper for use particularly with commercial facsimile telegraphy, but usable in many types of recording instru-ments_has_a_coating of electro-sensitive material which is "printed" by an electric current passing to it from a simple wire stylus. The new paper, dubbed Teledel-tos, was developed by the Western Union Telegraph Co. It meets the requirements in facsimile recording

requirements in facsimile recording by being instantaneous, dry and permanent. The coated paper is light gray. The current flowing thru it produces a black mark. In previous facsimile transmission, the record was made photosion, the record was made photo-graphically by a beam of light on photo-sensitive paper. Facsimile is a system, now coming into wider usage, in which an entire printed page, letter, message or photograph

A DISHONEST RESOLUTION

he

THE American resolution presented to ¹ the United Nations General Assembly by Dr. Philip C. Jessup in the Chinese-Russian dispute is a hypocritical evasion of the issues upon which China has asked - the member nations to pass judgment.

It is a contradiction in part of the State Department's own official White Paper or China, which Dr. Jessup himself edited.

If adopted in its present form, the resolution will be a left-handed approval of everything Russia has done in Manchuria and China.

China asked the United Nations to pass on accomplished facts and stated acts of Russian aggression. But the American resolution is worded as the none of the acts of which China has complained had

DR. PHILIP C. JESSUP

taken place. It deals only with the present and the future, not with the past.

Dr. Jessup's speech in support of his resolution was more forthright than the resolution itself, in that it contained a restrained criticism of Soviet acts in Manchuria. But there is not one word of condemnation or criticism in the resolution itself, nor is the Soviet Union mentioned.

The resolution calls upon all nations "to respect the political independence of China and to be guided by the principles of the charter in their relations with China." This in the face of the published fact that Russia set up a puppet government in Manchuria months ago-long before the Chinese Communists announced the formation of their own "government" at Peiping.

It also asks all nations to "respect the right of the people of China now and in the future to choose freely their political institutions and to maintain a government independent of foreign control." This at a time when Red troops control most of China. In what country in the world have the people had a voice in the formation of a government when Red troops were in control?

Finally, the resolution asks member nations to "refrain from seeking to acquire spheres of influence or to create foreigncontrolled regimes within the territory of China," and from "seeking to obtain special rights and privileges" in such territory.

This is crowning evasion with deceit. President Roosevelt and Winston Churchill promised Stalin "special-rights

and privileges within the territory of China" at Yalta in February, 1945. These included the right to establish a Soviet naval base at Port Arthur, the right to control the commercial port of Dairen, and the privilege of operating the Manchurian railroads.

These concessions were made without consulting China and the United States forced China to accept them. This is admitted on Page 116 of the White Paper which states: "The American position was that the Yalta agreement should be complied with—no more, no less."

Russia used these concessions to secure control of the rest of Manchuria anc to aid the Communists in their conquest of China proper.

The United States Government has stultified itself by offering this resolution to the United Nations, and the UN would stultify itself by adopting it.

THE MINERS PAY-AND HOW!

THE coal miners certainly are paying a high price for whatever it is John L Lewis may think he is accomplishing.

Out of 234 possible working days so far this year, the 380,000 bituminous miners most 80 because of strikes or short works parent. weeks ordered by Mr. Lewis.

The loss of wages that might have been earned in 80 days amounts to approximate ly \$1200 for the average miner.

And, if the three-day week now order by Mr. Lewis continues thru December the possible working days not worked 1949 will be almost 90, and the potent earnings lost to the average miner will approximately \$1350.

On March 11, the miners went out for two-week strike because Mr. Lewis si they must protest the appointment of James Boyd as director of the

reau of sines. The U.S. Senate promptly confirmed the approximent.

On June 13, they went out for a week which Mr. Lewis termed "a stabilizing period of inaction."

On June 30, he decreed that they should work only three days a week until further notice.

On Sept. 19, Mr. Lewis ordered a "noday week" to enforce pension, welfare and other demands which he never yet has explained clearly to the miners or the public. That Strike Conversed for 52 days-

On Nov. 9, Mr. Lewis, professing con-cern for "the public convenience," sent them back to work for three full-time weeks.

Yesterday, that period having expired, they struck again, and a few hours later he ordered them to resume work, on a three-day week, beginning next Monday. So, back they'll go, hoping to earn a

little cash for Christmas, but not knowing that Mr. Lewis won't call them out again at any moment.

If the miners have any prospect of gains to show for all their losses, all the turmoil they've gone thru, all the economic damage done to the country and all that may be done by shortages of coal in the winter east of the Mississippi have been idle at months ahead, that prospect is not ap-

Only John L. Lewis knows-if, indeed, even he knows-the purpose of his tactics. If it is just to prove how powerful he is, that demonstration is totally unnecessary.

The country already has had superabundant proof that immunity from the anti-trust laws enables this one man to abuse monopolistic power greater than that any industrial combination ever had.

And the coal miners already know only too well that the dictator of their union has power to punish individuals or groups who might dare defy his edicts-power to even if it means their ruin.

FOR "Reader's" information, 1 am not bad at all, certainly. not as bad as Eleanor or Ickes.

I just smell that way now because I am deep in the hills of West Virginia and my Uncle Dud, who resembles an Italian laborer, left the top off his vat of working mash and I fell into it. This is one run of sugar whisky that will probably taste like wool shirts, leather boots and Washington gasoline.

Like Harpo Marx, it seems that most of my life has been spent either running after or away from something, except for four years military duty when the Articles of War caused considerable change in my schedule. Naturally, due to ex-tended research in public libraries tended research in public libraries thru the works of Rabelais, Thorne Smith, Veblen, the Marx brothers (Karl and Groucho), Louise Alcott, Willa Cather, Somerset Maugham, Ambrose Bierce, the Rover Boys, Tarzan, and the latest science-fic-tion, I feel that by experience, edu-cation and general instability I am superior to the other presidential candadates. candadates.

I not only don't expect to keep my campaign promises, I don't ex-pect to make any, if I run. While pect to make any, if I run. While I would much prefer to run for a blond that for President, if "Read-er" insists I shall make a feeble attempt in 1952. As for the Party, I am sure the Eggheads of America can throw a better one, whatever it is: -As the chorus girl said, I would rather be wronged than not have a mink coat at all, or was it rather be right than-well. It rather be right than well-Uncle Dud, ain't that half-gallon jar drapped full of no singling's yet? I got a powerful thirst. Politics is fer wimmen folks.

EGGHEAD McGINTY. (Along Cheat River, W. Va.)

WHO IS DR. JESSUP? DR. PHILIP C. J. UP, the American spokesman in the urrent United Nations debate on Nationalist China's charges against the Soviet Union, is the same Dr. Jessup chosen by the State Department to

أ وحد مع

East. I For this reason, his past associations and attitudes have become of general pubbc concern.

draft a new American policy for the Far

Over apperiod of years, Dr. Jessup held various positions in the Institute of Pacific Relations, including the chairmanships of its American and Pacific Councils. In these expacities he was in close association with such well-known left-wingers as Anna Louise Strong, Guenther Stein, Harriet Lucy Moore, E. C. Carter, Theodore A. Bisson, Andrew Grajdanzev and Frederick Vanderbilt Field.

While the institute's publication, the Far Eastern Survey, was under Dr. Jessup's direction, it began a campaign against Nationalist China. Referring to what it called the "two Chinas," it said, in, an 'article signed by Mr. Bisson: "One is now 'generally called Kuomintang China, the 'other is called Communist China. However, these are only party labels. To be more descriptive, the one might be called feudal China, the other democratic China." Thus began the long campaign to tear down Chiang Kai-shek and present the Chinese Reds to the American people as democrats and simple agrarian reformers. We know them better than that now. But that is due to no contributions by Dr. Jessup.

The Communist front organizations with which Dr. Jessup has been affiliated or has sponsored include the American-Russian Institute, the National Emergency Conference (organized in 1939 to protest the deportation of aliens who advocated changing our form of government), the National Emergency Conference for Democratic Rights and the Co-Ordinating Committee to Lift the Embarge—on Red Spain. He was one of 12 signers of a letter in The New York Times Feb. 16, 1946; urging the United States to support the mann-

He was one of 12 signers of a letter in The New York Times Feb. 16, 1946, urging the United States to suspend the manufacture of atomic bombs, following appointment of the United Nations Commission on Atomic Energy. This letter unged, in order that the discussions on atomic energy control might" proceed in an "atmosphere of good faith and confidence;" that—

1. "The United States at once stop the production of bombs from material currently produced"—this to include the preparation of sub-assemblies and "all other procedures involved in the fabrication of the bomb."

2. "For one year, which would seem to be a reasonable time for the commission to mature its plans and to secure action on them by the governments concerned, we will stop accumulating purified plutonium and aranium 235, which are the essential ingredients of atomic bombs."

The letter to The Times added that any fissionable products developed while keeping the atomic energy plants on a stand-by basis should be dumped in the ocean or returned to their original unixture.

Since the Russians claim they began making bombs in 1947, they might have caught up with us or passed us in atomic bomb production had Dr. Jessup's views prevailed.

Dr. Jessup way a character witness for Alger Hiss at his first perjury trial.

-He was the editor of the State Department's White Paper on China, which one student of the subject characterized as a "bulky compendium of many truths, some half-truths and frequent contradictions of published and acknowledged fact."

Here at best we have the picture of a confused liberal feeling his way around in circles and often finding himself in duestionable company. Certainly it is not the record of a man who should be chosen to formulate anything of such tremendous potentialities as an American policy for the Far East.

Imagine sending a Dr. Jessup to preside over a conference on Far Eastern affairs at Bangkok, when we have a man like Gen. Douglas MacArthur in nearby Tokio!

If this is the way American foreign policy is being made, God save us from the Russians.

Office Memorandum • UNITED STA	ES GOVERNMENT
TO : Mr. Ladd FROM : Mr. Rosen	DATE: November 29, 1949
SUBJECT: CENTRAL INTELLIGENCE AGENCY INVESTIGATIONS Reference is made to your inquiry concerning Colonel Sheffield Edwards for a conference at the Burea investigations. Applicant Investigation	

You will recall that in answer to an inquiry from the Bureau of the Budget, Mr. Glavin on October 25, 1948, in accordance with Mr. Tolson's instructions advised Mr. Gus Moe, of the Bureau of the Budget, that the Bureau would be in a position to handle investigations for CIA through the fiscal year 1950 at \$200 per unit cost. This advice was given to Mr. Moe on October 2-25, 1948.

C.I.

Thereafter on November 12, 1948, Admiral Hillenkoetter advised Mr. Ladd that CIA would desire the Bureau to conduct these investigations.

BACKGROUND:

On November 18, 1948, Mr. James E. Webb, the Director of the Bureau of the Budget, advised the Attorney General that it was his understanding that the Eureau would be in a position to handle the investigations.

On December 2, 1948, the Attorney General wrote Admiral Hillenkoetter advising him that the Bureau would be in a position to undertake the investigations during the remainder of the fiscal year 1949 and the fiscal year 1950 at \$200 per case. The Attorney General stated that he trusted that mutually satisfactory arrangements could be worked out between CIA and the Bureau concerning these investigations.

Pursuant to the Director's instructions, you will recall that you, Mr. Callan and myself and of CIA, conferred on December 8, 1948, in your office concerning the investigations and it was agreed, subject to confirmation, that the Bureau would handle CTA applicant investigations between January 1, 1949, and July 1, 1949, and that CIA investigations would be handled during the fiscal year of 1950. The $b\beta$ agreement was confirmed by an exchange of correspondence between Admiral. Hillenkoetter and the Director. Admiral Hillenkoetter's letter of December 13, 1948, outlined the agreement which was to the effect that the FBI would undertake to perform investigations for CIA from January 1, 1949, to July 1, 1949, at approximately per month. The Bureau would endeavor to complete the investigation of persons who were employees of CIA within 90 days and of those who were applicants for employment within 60 days. The interest of CTAVin the individuals under DED - 9 IAN IS 1950 INDEXED - 9 31 INDEXED - 9 31 GCC:MAN //iru RECORDED - 9 ALL INFORMATION CONTAINED HEREIN IS UNCLASSIFIED DATE 5-21-99 BY 60267 NISEPTNE Per OG A

Menorandum for Mr. Ladd

investigation was not to be disclosed during the course of the investigations. CIA would furnish such information necessary to the FBI to allow them to conduct the investigations and this information would include any pertinent information already in the possession of CIA.

The Bureau agreed to conduct semi-covert investigations for CIA, that is of individuals who were ostensibly working for some other Government Agency but were actually performing functions for CIA. CIA was to notify us of any applicants in this status. It was also agreed that the FBI would accept a reasonable number of investigations as "expedite or priority" cases provided this number was kept at a minimum, and it was finally agreed that CIA would reimburse the Bureau in the amount of \$200 per investigation. The Director's letter to Admiral Hillenkoetter dated December 17, 1948, approved the agreement.

FBI INVESTIGATIONS FOR CIA:

The Bureau commenced conducting these investigations for CIA on January 3, 1949, and has continued to receive the cases at the rate of approxi-<u>mately</u> per month since that time. As of November 25, 1949, we had closed cases. We had pending on that same date cases.

RELATIONS WITH CIA CONCERNING APPLICANT CASES:

Our relations with CTA with regard to the handling of these applicant investigations have been excellent. We have experienced no difficulty and CTA has on several occasions expressed its satisfaction with the investigations. of CTA, has expressed himself on several occasions as being entirely satisfied with the investigations, and in conversations with Mr. Callan from time to time, have also indicated that the investigations were of great value to CTA and have praised the Bureau's conduct of these investigations.

b3

On July 14, 1949, while discussing other matters with Admiral Hillenkoetter, the Admiral mentioned to Agent DeLoach, of the Liaison Section, the excellent manner in which the FEI investigations were being conducted. On that occasion he stated he had personally observed several of the reports which contained detailed and concise language and which were "reports that any agency could be proud of."

- 2 -

Memorandum for Mr. Ladd

OBSERVATIONS CONCERNING OUR CONDUCT OF CIA INVESTIGATIONS:

These investigations are conducted by agreement and not under the sanction of a public law. Since CIA wants the investigations we have had no trouble concerning them. There has been no fault found with the Bureau concerning these cases but on the other hand only praise and appreciation. CIA has held its requests for expedite investigations at a minimum. They have been satisfied with 60 and 90 day dead lines respectively and have not pressed the Bureau for expedite action as have some other Government Agencies, which practice results in inconvenience and a waste of time and moneyas far as the Bureau is concerned. They have scrupulously adhered to their agreement and have forwarded the investigations to us in an even flow, which has not been true of some of the other Government Agencies. In short, there has been no conduct on the part of CIA with regard to these applicant cases to which the Bureau could take any exception whatsoever.

It will be recalled that CIA had established a staff of investigators and had opened some field offices for the purpose of handling these investigations. They had made very little progress in this regard so far as disposing of the back log of applicant cases which confronted them. It was necessary, however, for them to curtail their activities in this regard and it will also be recalled that when we discontinued the handling of applicant investigations for CIA under the previous program, we first advised them of this action on September 30, 1947. We accepted no cases after December 31, 1947, yet at the time the program was re-instituted a year later it was found that CIA while they had in that length of time set up an investigative organization, they had made relatively little progress in handling this phase of their work.

It would appear that in view of the satisfaction which has been continuously expressed by CIA with the investigations as conducted by the FBI desires to request the Bureau to conduct the investigations beyond the present contract date which is June 30, 1950. On occasion he has expressed himself to the effect that he hoped the Bureau would continue to conduct these investigations. It is rather evident, therefore, that the purpose of request for a conference is to convey to the Bureau the desire of CIA for the Bureau to continue these investigations.

We have in our 1951 budget estimate given consideration to the estimated work to be referred to the Bureau by CIA on a reimbursable basis, which at the increased figure of \$206.40 per unit case would result in a reimbursement to the Bureau by CIA of \$504,000 during the fiscal year 1951.

RECOMMENDATION:

Inasmuch as the CIA applicant program would result in a reimbursement

Memorandum for Mr. Ladd

to the Bureau during the fiscal year of 1951 in the amount of \$504,000 and since it will also serve the continued purpose of giving CIA no excuse to maintain a domestic investigative staff and further since the investigations appear to be desired by CIA, their satisfaction with them having been expressed on many occasions, since the dead lines are not such as to cause the Bureau any serious inconvenience and the cases are referred to the Bureau in an even flow so that we are able to count on them periodically, thus avoiding their handling on an emergency basis, and lastly since CIA has observed its contract during the time in which we have conducted these investigations and our relations regarding them have been entirely satisfactory, it is recommended that, provided the same agreement can be reached with the exception of the fact that the Bureau should obtain more money per case because of the uniform pay increase (which the Administrative Division estimates to be \$206.40 per investigation), we continue the present agreement in the event Colonel Edwards requests it for the fiscal year 1951.

ADDENDUM - December 1, 1949

At a meeting of the Executives' Conference on December 1, 1949, attended by Messrs. Tolson, Glavin, Parsons, Mohr, Carlson, N. McCabe, McGuire. Fletcher. Rosen and Ladd, it was pointed out to the conference that of CIA has requested an appointment with Mr. Ladd for 9:30 AM December 2, that he has indicated that he wants to request the Bureau to agree to investigate CIA applicants on a permanent basis. If this is not agreeable, to request an agreement covering the next two fiscal years. The views in the above memorandum were called to the attention of the conference.

Mr. Tolson was of the opinion that CIA be advised that we could not continue to conduct their investigations for them beyond the end of the fiscal year 1950.

Mr. Tolson was of the opinion that the Bureau loses money conducting these investigations for \$200 a case and further felt that the Bureau had too much work of its own without handling the investigations of CIA.

Messrs. Glaving, Parsons, Mohr, Carlson, N. McCabe, McGuire, Fletcher, Rosen and Ladd were of the opinion that for the reasons stated in the above memorandum that the Bureau should agree to conduct these investigations for CIA for one year, namely through the fiscal year 1951 and not commit the Bureau further at this time.

	Office Memorandum • UNITED STATES GOVERNMENT
w	• UNITED STATES GOVERNMENT
	TO : The Director DATE, December 2, 1949
	FROM : Mr. Ladd
	SUBJECT: CENTRAL INTELLIGENCE AGENCY INVESTIGATIONS
	Reference is made to Mr. Rosen's memorandum to me dated November 29, 1949, concerning the present arrangements which exist be- tween the Bureau and the Central Intelligence Agency with regard to the applicant investigations which this Bureau is conducting for that organization. A copy of this memorandum is attached for your ready
	In connection with this matter
1	of CIA, called at my office on the morning of December 2, 1949, pursuant to the request of for a conference with myself, Mr. Rosen and Mr. Callan.
•	CIA'S APPRECIATION OF FBI INVESTIGATIONS:
	stated that he wished to take the occasion to express the appreciation of CIA to the FBI for the very excellent investigations which had been conducted. He pointed out that these investigations were of great value to CIA and that they were the best investigations of their nature which he had ever seen.
	CIA'S REQUEST FOR CONTINUING AGREEMENT:
	requested that the Bureau give consideration to a permanent arrangement whereby the Bureau would conduct investigations of CIA applicants on the present basis, but on a continuing agreement rather than on a yearly basis as is the present case. You will recall that our agreement ex- pires at the end of the current fiscal year. No encouragement was given him in connection with this request and he was advised that a great many reasons existed why such an arrangement was not desirable; however, he was told that his request would be conveyed to you. CIA'S REQUEST FOR CONTINUATION OF PROFILE ARRANGEMENT 18 1950
	way clear to effect a permanent arrangement with CIA the breau could not see its be continued for at least the next fiscal year., He stated that the number of cases would remain approximately the same, namely per month and that as far as CIA was concerned there need be no alteration in our present agreement.

۱ ۶ STANDARD FORM N Office Memorandum • UNITED STATES GOVERNMENT DICLASSIFIED BY 60267NLSEPTAE DATE: 2-2-50 THE DIRECTOR TO 07 5-21.99 PerOGA Rosen FROM EXECUTIVE CONFERENCE MEMORANDUM SUBJECT: CENTRAL INTELLIGENCE AGENCY APPLICANT INVESTIGATIONS RET The Executives' Conference considered our program relating to entral Intelligence Agency applicant investigations to recommend futur action at the termination of our present agreements. OUR PRESENT AGREEMENT WITH CIA (5-1)6) U bЗ As a result of a request from CIA, a conference was held at the Bureau at which represented CIA and Mr. Ladd, Mr. Rosen and Mr. Callan represented the Bureau. (3-7) This conference was held on December 2, 1949. Subject to the Director's approval, it was agreed that the Bureau would continue to conduct investigations for CIA on the same basis upon which we are currently conducting then except for a raise in price from \$200 to \$206.40 per investigation through the fiscal year of 1951.(s CIA was advised of this agreement by letter dated December 12, 1949, from the Director to Admiral Roscoe M. Hillenkoetter, the Director of CIA. Hillenkoetter acknowledged our letter on December 16 and confirmed the agreement. (5-1)6) V Our present agreement calls for the investigation of applicants for open positions with CIA and for applicants concerning so-called "semi-covert" positions with CIA. These latter positions concern individuals who are openly working for the Government but whose connection with CIA is confidential. For example, a representative of ECA or a cormercial attache at one of our embassies. (s-ixs) Our present agreement does not encompass any individuals under consideration for undercover assignments with CIA. CIA has conducted its own investigations of individuals who were being considered for undercover positions using pretexts and subteringes and not revealing its interest in such individuals. CIA conducts these investigations because they have advised us that they are necessary in order that. they will have an idea concerning the reliability of individuals whom they intend to employ. Since the individuals are to be employed in an undercover capacity/it must not appear during the course of the investigations that any agency of the Federal Government is investigating them or contemplates hiring them. CIA requested us to conduct these investigations for them at the inception of the CIA Program. The matter was first broached to the Bureau on September 25, 1946. We have consistently refused to conduct such investigations for CIA. IVI/IN# 323,0/ RECORDED - 34 APP711 # INDEXED - 34 CIVITACT. # 2.0. # 1735 Ë 19 DATE 5 1819 AR:FE 1/1950 Some In Art Ag

Memorandum to the Director

This matter had been previously submitted to the Director and the majority view of the conference on December 6, 1949 was approved by the Director outlining the following reasons which motivated the majority of the conference in its decision. These reasons are as follows:

1. CIA desired the investigations and was requesting continuation .of the agreement.

2. CIA had scrupulously observed the agreement.

- 3. CIA had expressed itself as being eminently satisfied with the investigations.
- 4. The <u>dead lines were such that no serious inconvenience was</u> caused the Bureau in handling these investigations.
- 5. The cases were referred to the Bureau by CIA in an even flow so that no emergency situations were created.
- 6. The conduct of these investigations by the Bureau gave CIA no excuse for the maintenance of a large investigative staff in the domestic field.
- 7. The arrangement would result in a reinbursement to the Bureau during the fiscal year 1951 in an amount of \$504,000.

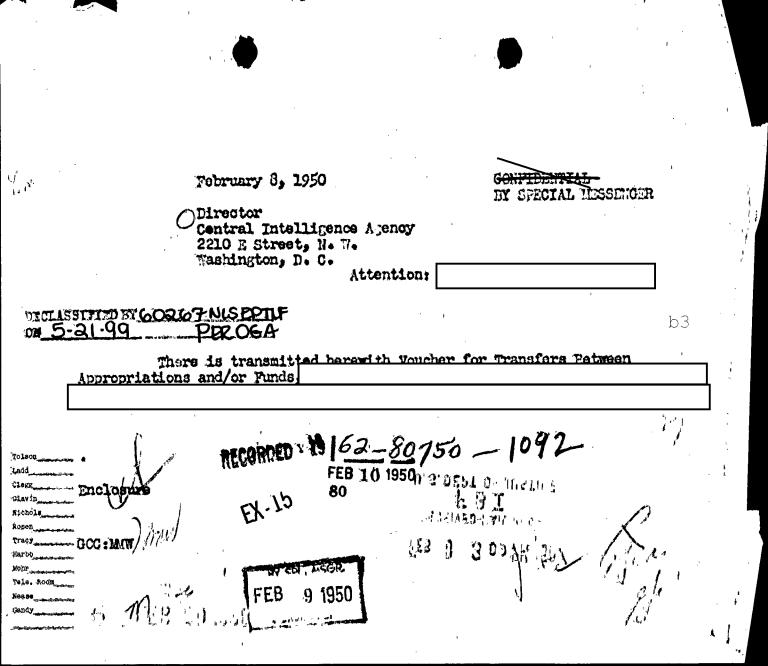

Following the Director's approval of the recommendations, a letter was forwarded to Admiral Hillenkoetter on December 12, 1949.

RECOMMENDATION

The Executives' Conference with the exception of Messrs. Tolson, NEASE Glavin and Mohr recommend that we continue our policy for the reasons indicated above. Those opposing indicated that they were opposed to continuing because we had too much work of our own to do and that we, therefore, could not afford to handle these investigations. As the considerations still prevail the majority were in favor of again approving the existing policy. There has been no breach of the contract as yet by CIA. Our present agreement takes, through to June 30, 1951.

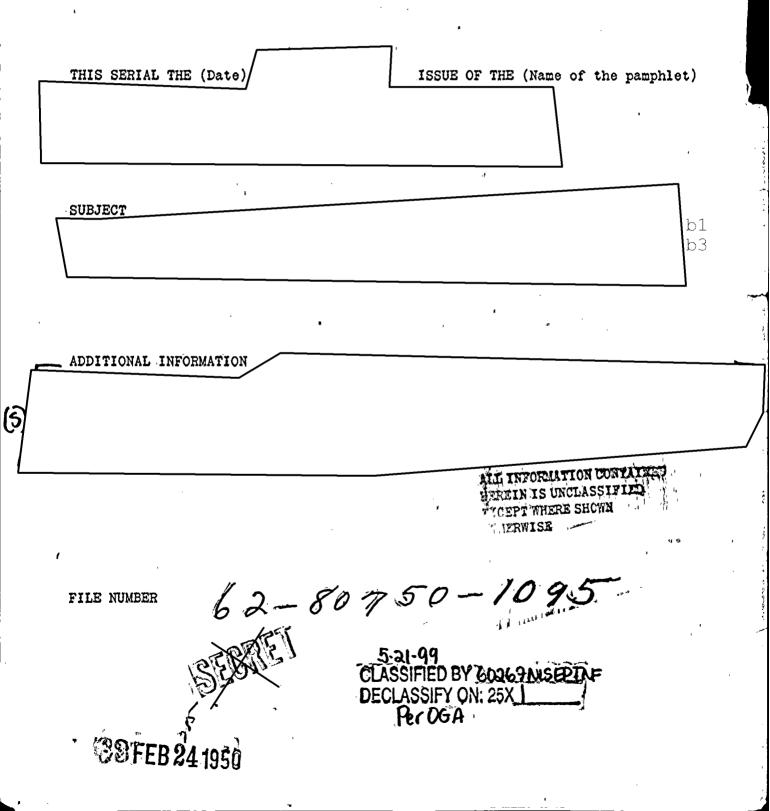

Those in attendance were Messrs. Tolson, Ladd, Harbo, Glavin, Nichols, Mohr, Tracy, Carlson, Fletcher, N. H. McCabe and Rosen.

Respectfully, I concur hut For I want problem re - Clyd considered in 6 mos -For the Conference Clyde Tolson

Office Memorandum • UNITED STATES GOVERNMENT

For your information this is to advise that Pat Coyne called on the telephone today and referred to a letter which was sent by the Bureau to Admiral Souers, indicating that Billy Rose had furnished information to the Bureau to the effect that a couple of CIA representatives had approached Rose for a "cloak and dagger" job. Souers told Pat Coyne to call the Bureau with reference to this letter and advise the Bureau they are not taking any further action in the natter, since he was considering the letter as on merely for his information.

In view of the fact that this was sent to Souers and was not sent to CIA, it would appear advisable to furnish the information to Hillenkoetter if we want CIA to know that this information has come to our attention.

February 16, 1950

MR. H. B. FLETCHER HEREIN IS UNCLASSIFIED FOR DATE 5-21-99 BY 60267NISEEIN LIEUTENANT GENERAL ALFRED MAXIMILIAT SUBJECT: COGA.

STANDARD FORM NO. 64

TO

FROM

Reference is made to my memorandum to you in the above-captioned matter dated February 9, 1950, reflecting background information concerning the above-captioned individual.

You will recall that General Eolling confidentially advised Mr. Reynolds that he had learned that General Gruenther was the choice of Secretary of Defense Johnson to replace Admiral Hillenkoetter as Director of the Central Intelligence Agency. As noted in the referenced memorandy General Bolling advised that he would attempt to obtain additional in Contain concerning General Gruenther and advise the Bureau.

General Bolling has now advised Mr. Reynolds that he has reviewed General Gruenther's personnel file and has ascertained that he has an outstanding personnel file. General Bolling stated that General Gruenther has been classed as one of the three outstanding General Officers on active duty by General Eisenhower and General Bradley, former Chiefs of Staff. General Bolling confidentially advised that in reviewing General Gruential file he was impressed with the fact that the efficiency ratings given deh Gruenther when he had direct control of troops were not nearly as outstanding, in fact relatively low ratings, as compared-to whethe was in a staff assignment. General Bolling concluded from this that apparently General Gruenther had difficulty in "getting along with and controlling people."

General Bolling advised Mr. Reynolds that he personally felt that the choice of General Gruenther to be Director of the Central Intelligence Agency would be very ill-advised. He stated that from his observation General Gruenther "talks too much"; further, that he would likely "run wild and get into everyone else's field" and only use the job as Director of Central Intelligence to gain the assignment as Chief of Staff.

General Bolling stated that it is his personal opinion that the Director of the Central Intelligence Agency should be a civilian who would owe allegiance to neither the Army; Navy or the Air Force and who would assume the Directorship of that organization as a career.

It should be noted that the remarks of General Bolling, as indicated and quoted above, were furnished to Mr. Reynolds in extreme confidence.

RECORDE ACTION: For information purposes. FEB 28 19 None. 37
