ACC	Wharton, Althea	2012-00040-A	Barton, David	1/6/2012	RE: FOIA Case 2011-01757-F, Appeal of Denial Determination of 15 Nov 2011 Enclosed please find a pdf file containing the appeal of David F. Barton in the above-captioned FOIA case and a copy of the denial determination. A copy of this appeal with an attachment containing all previous case related correspondence has also being filed this day via email with ACC FOIA at acc.foia@langley.af.mil and has been assigned number 2012-00039-A. Please direct all correspondence regarding this appeal to dfbarton@gardner.sa.com
ACC	Bethea, Rand	2012-00055-A	Patch, Jim	12/12/2012	Requester is appealing the (b)(4) exemption for the entire document. He has requested releasable portions be released in accordance with AFMAN 33-302.
ACC	Wharton, Althea	2012-00135-A	Oara, Ruben	6/28/2012	Dear Air Force Secretary, I am requesting an appeal to FOIA case number 2012-04196-F. I was given the information requested concerning Air Force ACC Flying Evaluation Board (FEB) statistics, but the information I requested was innaccurate, and thefore according to the Basis for Appeal, I take this to be a "Failure to Respond," as I saw no other close descriptions. According to the document I received from Mrs. Wharton of the ACC FOIA Office, there has only been 1 FEB processed by Creech AFB within the last 5 years. I know this not to be the case because in the last year alone I know there have been at least 3 FEBs processed at this base (including my own). There may have been even more. The primary reason I even began this inquiry to determine Air Force wide FEB statistics is due to a perception I along with several of my colleagues believe to be an unusual high number of FEBs convened at this base. When I called her office, she explained to me that I would have to submit an appeal to the SecAF in order to review this case even further. I am humbly requesting that the ACC FOIA office thoroughly reveiw the statistics given to me or at the very least solicite accurate information concerning Creech AFB. Thank you, Sir. Sincerely, Capt Oara

Finally, I am requesting all e-mails addressed to Sheryl R. Wohleb or sent by Sheryl R. Wohleb to any of the above individuals. The time period to be covered for any responsive records is February 1, 2012 to the August 6, 2012 or the present date received. Some of these individual have PCSd or moved recently; however, an average Instructional Technologist or I.T. person would be able to easily access them by placing certain criteria in the search box, namely include sub folder. This same criteria will work for all emails not provided because the individual no longer works at Offutt, i.e. Lt Col Brian Young; Col Patrick Dawson, Col Eric Nelson, etc. This system is backed up often and the previous versions of this is available to Air Force computer technicians. All of their mailboxes are still active and can be checked without difficulty. These have not been destroyed and remain active although the return receipts come back as their mailbox is over its limit. All of the above mentioned personnel have e-mails mapped to their H drive and that would be another place that needs to be looked at by the Agency or person providing the e-mails. Thank you.

ACC	Bethea, Rand	2013-01444-F	VILLARREAL, AMANDA	12/27/2012	On December 17th, 2012 myself and my boyfriend, Jacob Witt went to his son's mother's house (Deborah Melendez) to pick up his son per a court order. We went to the door and asked for the child, and she slammed the door and never came back. I called security forces after waiting for about five minutes at approximately 1756L. After about an hour of us being there and waiting on a court order, the child was handed over. We asked the security forces guys if we could get a copy of the report. We were told that there wouldn't be a report written up, only a blotter entry. We are in need of the blotter entry, due to Deborah Melendez filing an Order of Protection against Jacob Witt due to that incident, in which she stated that Jacob and I were demanding and threatening her, as well as scaring her and her children. We are unsure of the court date but we have been told that it will be within the next 10 days. If I could please get this blotter entry as soon as possible, it would be greatly appreciated. Thank you.

ACC	Gaona, Monica	2012-04577-F		6/22/2012	In September of 2011, I was given Barment orders via US Certified Mail by Brig Gen McGillicuddy. The nature of the rationale to Ban me and my Family from Beale AFB is nonsense in the rational person's opinion. Thinking that the Wing Commander changing would be enough to politely request to be re-admitted to entry onto the Installation, I sent Col Stewart a nice letter - only to see that 'after careful review of the information provided' my Barment order still stands. This is funny, because I have had 0 (zero) Due Process, and have not seen anything other than the Barment memos. I'd like everything associated with my name - [redacted] - do be disclosed if there was some Investigation tied to a phone call that my prior Squadron Commander made to me before I was separated from the USAF on 30 Sep 11. Thank you for your vigilance in helping me track down this information in hopes to appeal it.

ACC	Cunningham, Susan	2012-00046-A	Heron, Earl	1/19/2012	The below excerpt of letter to my Congressman documents your 3 August 2011 "no records" response letter omits records attempts at the specific office locations specified in my online foia request. The letter implies contact with the 57 FWW Legal office will have resulted in attempts at the offices I requested, without specific no records responses from these offices. For example, the Thunderbird museum is not a substitute for the USAFADS Safety Office. Also, paragraph 10 of the 3 August 2011 letter of reply from the FOIA manager to Congressman Ackerman states that "the releasable copy of the safety report...contains almost everything addressed in the AIB. This statement is materially false as the releasable pages of the AIB count about 122 pages while my research from court documents referring to the AIB report indicate the AIB report indicate it is over 700 pages long. I ask that the appeal remain open as I am still pursuing these records here and thru the Congressman and his liaison with the USAF. August 5, 2011 The Honorable Gary Ackermann 218-14 Northern Boulevard Bayside, New York 11361 VIA FAX ONLY Dear Congressman Ackerman: Subject: Your August 3, 2011 Reply Re: FOIA case 2011-03889-F Thank you for your efforts in this regard. Some key points made by the ACC FOIA manager in their August 3 letter: the AIB custodian had no records indicating this AIB was labeled for historical significance and should be retained as a permanent record. This statement states no action plan given their process for such identification appears inadequate. Given the reasons I listed in my original correspondence to Congressman Ackerman making all accident board reports permanent records would make such subjective decisions regarding historical records moot. There is no justification for destroying the public document (accident board report) after 25 years while still withholding from release portions of the permanent (record safety board report) after the public document is destroyed. We are not obligated to ask individuals assigned to key positions or base personnel if they retained a personal copy of a government record. A lack of obligation does not constitute a reason to refuse a suggestion to do so. As I reflected above, ACC made a statement that the report was not flagged historical without conceding this appears to have been a mistake. Given what I believe was a mistake, I do assume some obligation to make the specific office contacts I suggested to replace a record that was mistakenly destroyed. ACC has chosen not to fulfill a citizens request that just such a request be made, not for a Team members personal copy, but for a copy retained by the Team in one of the offices listed in my letter. Although their unsuccessful attempt was not unreasonable with the Thunderbird museum, it was not one of the offices listed in my letter. ACC ... avoided the likely places I suggested... NOTE: If an individual is identified as having a copy of a record past its disposition, we may obtain a copy to reply to a FOIA request. I thought I was more than specific enough in my original correspondence. However, if anyone would know the location of this retained report somewhere in the Teams files it would be the Commanders secretary, Ms. Maureen Walker. She was there in January 1982 and continues her service today in that capacity.

ACC	Cunningham, Susan	2012-00050-A	Steiner, Samuel	1/26/2012	I am appealing this request. The reason for my appeal is because I received a response for this FOIA request that said that Nellis AFB could not produce all of the releasable documents that I requested because it would take tremendous amounts of labor and man hours to process this FOIA request. I would like to explain more specifically the types of records that I am requesting: I am requesting a history of how Area 51 operates and what projects that Area 51 is currently undertaking. I had requested in my original request to obtain a certification by the Commander, Nellis AFB, saying that the records were accurate and true to the best of their knowledge. I still would like that certification, however, if you cannot provide it to me, it is okay.

ACC	Cunningham, Susan	2012-01292-F	Steiner, Samuel	1/3/2012	I would like to request all releasable records that the Air Force has on file for Nellis AFB, Nevada. Specifically, the records that I am requesting relate to the following areas: Area 51, Groom Lake, Nevada, Dreamland, Detachment 3, Air Force Flight Test Center, and the National Classified Test Facility. In addition to all releasable records, I would like a letter, signed by the Commander of the Nellis AFB, that specifies the following information: that the areas mentioned above are active and operating Air Force installations and a specific account of what activities are occurring at these installations. In addition, I am requesting that all of the releasable records be certified by the Commander, Nellis AFB, to confirm their accuracy and validity.

The Remission Application CMS Case Number is 3928226. I am specifically requesting any email from the following personnel regarding this particular case from November 2011 to present day [this should, at a minimum, include LtCol Brent Hatch (99 CPTS/CC), MSgt Eva Rodgers (99 CPTS/FMF), and Ms. Stephanie Sperry (99 CPTS/FMFC)]. I have received conflicting information from the 99 CPTS and DFAS-IN regarding my case. LtCol Hatch and MSgt Rodgers have refused requests to discuss my situation. The final email I received from LtCol Hatch said he considers this case closed. Additionally, I am requesting the transcripts from the CMS regarding Case Number 3928226. I was initially told by MSgt Rodgers I was not authorized to see this information. She later said I could see the information on vMPF under the CMS section. Since 99 CPTS has elected to not re-open my case, I am no longer able to view the communication between the 99 CPTS and the Financial Service Center in Ellsworth AFB, SD.

ACC	Stine, David	2013-01258-F	Wallace, Ryan	12/12/2012	Request all releasable mission documents from the Air Force Rescue Coordination Center (AFRCC) pertaining to Aircraft Distress Beacon missions (only completed missions, not incidences) between 1 January 2006 and 31 December 2011. If possible, mission documents and released information should be limited to the following: type of ELT in operation (121.5 MHz, 406 MHz, GPS aided 406 MHz, or None/Inoperative ELT), application of cellular phone forensic procedures (use or non-use), application of radar forensic procedures (use or non-use), and mission duration. If other documents provide the above information, the requester is willing to accept consolidated records that contain line-item summaries of the information (i.e. Excel spreadsheet of mission records with requested information), if available. The requester does not seek any personally identifiable information of individuals involved in any incident. The requester is willing to accept documents in a downloadable PDF format or other electronic media format convenient to the providing agency.
ACC	Stine, David	2013-01363-F	Beach, Richard	12/18/2012	The USAF Rescue Coordination Center (AFRCC) responded to the search for a private aircraft, N800RW, a Cirrus SR22, on 16 November 2012 near Show Low, AZ, piloted by Robert Wolff on a flight from Durango, CO to Nogales, AZ. The pilot encountered a loss of engine power and maneuvered the aircraft towards an open field and deployed a ballistic parachute recovery system that lowered the aircraft under canopy to the ground. The pilot was unable to contact FAA air traffic control by radio, so he manually activated the ELT and contacted the GlobalStar 911 operator by satellite phone. The pilot was conferenced with a AFRCC specialist who took the GPS location coordinates from the pilot. The AFRCC specialist also helped the pilot locate his misplaced mobile phone by calling it repeatedly until the pilot succeeded in locating it within the plane. Using the mobile phone, the pilot contacted local 911 dispatcher, who helped effect contact with law enforcement personnel on the ground on a road about a mile away from the aircraft wreckage. However, the time involved from notifying FAA Albuquerque Center of the emergency until rescue took approximately two hours, despite the pilot providing precise GPS coordinates of his location. Due to the unique safety feature of the ballistic parachute recovery system, Cirrus pilots are likely to survive inflight emergencies but require search coordination to provide medical services and rescue extraction. The Cirrus Owners and Pilots Association seeks transcripts of the AFRCC communications with the pilot and any agencies involved in the search for N800RW. We also are seeking the procedures used by the AFRCC for requesting and receiving location information from aircraft ELT transmissions, FAA ATC radar locations, or similar sources.
