FOIA Case: 100503A
4 April 2017

JOHN GREENEWALD
[REDACTED]

Dear Mr. Greenewald:

This responds to your Freedom of Information Act (FOIA) request dated 1 January 2017 which was received by this office on 2 January 2017, for "a copy of the FOIA case log for calendar year 2016." For purposes of this request and based on the information you provided in your letter, you are considered an "all other" requester. As such, you are allowed 2 hours of search and the duplication of 100 pages at no cost. Since processing fees were minimal, no fees were assessed.

Your request has been processed under the FOIA, and the logs for calendar year 2016 are enclosed, along with a FOIA Case Dispositions reference sheet that explains the final case dispositions. Please be advised that the logs do not contain the number of pages released. They contain a final disposition if the case was closed at the time the logs were created. If there is no final disposition, the case was still pending at the time the logs were created. Certain information has been deleted from the enclosures.

This Agency is authorized by various statutes to protect certain information concerning its activities, as well as the names of its employees. We have determined that such information exists in these documents. Accordingly, those portions are exempt from disclosure pursuant to the third exemption of the FOIA, which provides for the withholding of information specifically protected from disclosure by statute. The specific statute applicable in this case is Public Law 86-36 (50 U.S. Code 3605).

Personal information regarding other individuals has been deleted from the enclosures in accordance with 5 U.S.C. 552 (b)(6). This exemption protects from disclosure information which would constitute a clearly unwarranted invasion of personal privacy. In balancing the public interest for the information you request against the privacy interests involved, we have determined that the privacy interests sufficiently satisfy the requirements for the application of the (b)(6) exemption.

In most cases requesters seeking the FOIA logs agree to omit Privacy Act or first-party requests from the logs. Please be advised, therefore, that when processing our FOIA logs, we typically remove first party requests as non-responsive, since they represent requests from individuals seeking information on themselves. Those entries, in addition to being exempt under (b)(6), are also marked as non-responsive.

Since these deletions may be construed as a partial denial of your request, you are hereby advised of this Agency's appeal procedures. You may appeal this decision. If you decide to appeal, you should do so in the manner outlined below.

- The appeal request must be in writing and addressed to:

NSA/CSS FOIA/PA Appeal Authority (P132)
National Security Agency
9800 Savage Road STE 6932
Fort George G. Meade, MD 20755-6932

- The request must be postmarked no later than 90 calendar days of the date of this letter. Decisions appealed after 90 days will not be addressed.
- Please include the case number provided above.
- Please describe with sufficient detail why you believe the denial of information was unwarranted.
- NSA will endeavor to respond within 20 working days of receiving your appeal, absent any unusual circumstances.

You may also contact our FOIA Public Liaison at foialo@nsa.gov for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows:

84221	4/15/2016	4/18/2016	JOHN GREENEWALD	I requested this more than 2 years ago, and received a GLOMAR response. With the time that has elapsed, I ask that the information be searched for again, and be considered for acknowledgement and release. According to a September 12, 2013, article published by Mother Jones: "Buried in a Brazilian television report on Sunday was the disclosure that the NSA has impersonated Google and possibly other major internet sites in order to intercept, store, and read supposedly secure online communications. The spy agency accomplishes this using what's known as a "man-in-the-middle (MITM) attack," a fairly well-known exploit used by elite hackers. This revelation adds to the growing list of ways that the NSA is believed to snoop on ostensibly private online conversations. I respectfully request a copy of all documents pertaining to this incident, including the presumed Power Point Presentation (in its entirety) referenced in the Mother Jones article above. Also, please include all documents relating to the NSA impersonating Google to intercept, store and/or read to collect information.	Neither Confirm Nor Deny

This request includes but is not limited to North Korean maritime operations during 1983 and after in the Gulf of California and San Idefonso Island/Isla San Idefonso involving numerous North Korean vessels, including one code-named "Clomax 71."
