Mr. William E. Colvy, Director Central Intelligence Agency Washington, D. C. 20505

> United States v. Bobbie Joe Keesee Criminal Case No. 74-1158

Dear Mr. Colvy:

The above-referenced individual is presently under indictment in the Southern District of California for the kidnapping of Vice Consul John S. Patterson who disappeared from his post on March 22, 1974, at the American Consulate in Hermosillo, Sonora, Mexico, and whose decomposed body was discovered on July 7, 1974, in an arroyo approximately 8 miles from Hermosillo. Keesee is charged in count one with conspiring to kidnap Patterson. Counts two, three, and four charge him with travel across state lines and in foreign commerce to facilitate and perpetrate the kidnapping. Count five charges him with mailing a handwritten extortion note to the American Consulate in Hermosillo from San Diego. [A copy of the indictment, as well as a copy of Keesee's rap sheet are enclosed.] Keesee may, if certain presently unresolved jurisdictional requirements are met, shortly be charged with the actual murder in addition to the five counts adverted to above.

As you are no doubt aware, Keesee has a number of federal felony convictions, one of which involved an airplane which he stole and flew into Cuba in 1962. He was later indicted in the District of New Mexico and ultimately convicted. However, during the course of the trial in late 1963, he alleged that his escapade across the country and eventually into Cuba was carried out at the request and direction of the C.I.A.

August 9, 1974

The jury fortunately recognized the absurdity of his story and convicted him. However, prior to trial, your agency was requested to supply, if necessary, a witness who could refute such a bizarre tale. Although no direct testimony on this issue was necessary, you agreed to supply such a person should the need arise. [I have also enclosed copies of your correspondence with the U. S. Attorney for your convenience.] I am afraid insofar as Bobbie Joe Keesee is concerned, history seems to repeat itself every 10 years. Keesee is now telling his attorney, has already told a number of agents, and may assert at trial, a similar type story, i.e., that his involvement in the above-referenced case arose out of his relationship with C.I.A. operatives and unidentified international conspirators. Although this obviously sounds a little ludicrous, Keesee has tried it before and is capable of trying it again. Considering that he spent 29 months as a civilian P.O.W. in North Vietnam and in the process had his teeth knocked out and all of his toenails ripped out, anything is possible.

It would be appreciated if you could state in letter or memo form whether Keesee has ever been employed by the C.I.A. I am hopeful that a categorical denial of any C.I.A. employment or sanction will satisfy his defense attorney and deter him from pursuing this line of defense. Please be assured that I will not call a C.I.A. employee as a witness unless it becomes actually necessary.

Very truly yours,

HARRY D. STEWARD
