Subj : Request for Information under FOIA on OSWALD

We have attached a copy of the print-out on OSWALD from the U.S. Defector Machine Program, a sub-program of the Soviet GICS Machine Program. (The 26 page computer print-out to which Mr. Lane makes reference is probably the file content listing. It is remarkable that FOIA requests now and then indicate leaks of information.) Under the terms published in the Federal Register, we are not obligated to provide (a) material from newspapers, books, and other overt sources; nor (b) information provided by other USG agencies; nor (c) information provided by foreign services. Data from those three sources have been marked in yellow, leaving only some 16 lines. (The sources are SB Division's SPR filed in 201-305052 and HMMA-31932. I assume that both of these sources involve foreign liaison, and hence are exempt.) In any case, there is nothing in the machine summary which is not covered by the 201. If you want to send the machine dossier along to DDO/FOIO, I have no objection, but nothing from this machine dossier should be passed to the requester.
