NOTE FOR:

SUBJECT: JFK Assassination Files

Our goal is to meet the 22 August 1993 deadline for completing the processing of the JFK Assassination records. We have added personnel on evening and weekend shifts to perform the indexing of documents, which is a major task remaining to be completed.

There are several outstanding issues that we plan to discuss with the JFK Review Board, once the President appoints the members. We are advised that the appointments will probably be announced by the end of July, but that it is unlikely that the Board will be in full operation by 22 August. Among the issues to be discussed with the Board are the relevancy of certain sensitive operational records; the handling of MHCHAOS (US persons) files; and processing of microfilm which includes duplicatory material.
