3. Document Number 104-10052-10087 [Substitute language issue/LICRYPT]. Board would not re-consider since the 30 days deadline as set by law had passed. Mary agreed that this was a procedural problem; she was also caught off guard by the Board's position. In the future substitute language will be provided on timely basis.

4. Names - The Board released ^{why Mark} only those names that the Agency advised could be released. Action on Whitten has been postponed until March 1996; the remaining names in the documents under consideration at this meeting plus the names in the documents for which we have received "Request for Evidence" sheets have been postponed until the late January meeting. Please provide additional information/evidence for these individuals as soon as possible; in the future provide the evidence for protecting a true name on the "Request for Evidence" for that document. The documents with true names pending will be tabled until a decision is made.

5. Stations - The Board released three stations and a base that we had requested be protected:

104-10015-10149
104-10015-10237
104-10015-10401
104-10017-10069

Edger

6. Digraphs - (The only good news). The Board agreed to protect the digraphs across the board; for future meetings digraph will be put on a consent agenda, i.e., the Board will not address document by document. Board also agreed to the full protection of service crypts but will continue to address them document by document. Substitute language will be "crypt".

7. The Board addressed ⁵ 7 documents; they are available for review this afternoon.
