Re: ARRB Request for Additional Information and Records No. CIA-7

Dear John:

Pursuant to its authority under the President John F. Kennedy Assassination Records Collection Act of 1992, the Assassination Records Review Board requests that the Central Intelligence Agency provide access to any and all internal CIA histories or retrospective studies or reports on the following topics:

1. The JMWAVE Station;
2. The Mexico City Station;
3. CIA activities with respect to Cuba covering the period October 1, 1962 to January 1, 1964;
4. Two CIA stations whose identities will be conveyed to you orally;
5. John McCone as Director of Central Intelligence.

In addition, we would like to request:

6. All indices to CIA histories held by the history staff of the Center for the Study of Intelligence.

This request should be interpreted in its broadest reasonable sense. To the extent that you question whether a particular type of study or report is encompassed by our request, please let us know and we can advise you whether we seek to include it.

Mr. John Pereira
November 8, 1995
Page 2

Should any of these requests impose an unreasonable burden on you that we may not have anticipated, please advise us so that we can work with you to modify or amend the requests accordingly.

In requesting access to these materials, we are not designating them "assassination records" and we are not, at this time, requesting that copies be given to the Review Board.

Thank you for your attention to this matter.

Sincerely yours,

RELEASE IN FULL
2000

Dear David:

This is in response to your letter of November 8, 1995 in which you conveyed the request of the Assassination Records Review Board to be provided access to "any and all internal CIA histories or retrospective studies or reports" on several topics.

We have begun to identify histories and other items that would meet the Board's request. The CIA Historian is assisting in this effort.

I suggest that we discuss with you or your staff the possibility of modifying the request somewhat. Several of the items mentioned in your letter cover a broad range of topics. It would be helpful, for example, if the pertinent historical time period for each item were specified, as well as what topics in the requested items would be of interest to the Board. This would assist us in excluding sensitive information that the Board would regard as non-relevant to the assassination or to the scope of the investigation.

Given the sensitivity of some of the materials requested, we would prefer that you designate one or two people to review the histories and other items in our offices.

Please let me know your views on the above suggestions. We appreciate the constructive efforts that you and your colleagues have made over the past year to work out reasonable, secure ways of handling documents. For our part, we are committed to being as responsive as possible to the Board's interests.

Sincerely,

John F. Pereira

ARRB Request CIA #7

1. We are now at a crossroads on a number of issues, including ARRB staff requests to review Agency files and other materials which were not within the JFK assassination collection. A number of these issues have been pending for over a year.

2. One such request deals with access to review a number of CIA histories which might provide further insight into the assassination or provide leads to information which would do the same. A specific history which has been identified as a priority is the JMWAVE history. It is our understanding that the JMWAVE history consists of 32 chapters and that they may not be all together in one volume (see attached). In terms of timing, we need to move quickly on this to find this history and review it.

3. Thank you for your assistance on this. If you have any questions, please call me ((613-1825; 31825) or Gary Breneman ((613-1839; 31839)).

3 March 1997

MEMORANDUM FOR: (Directorate Focal Points for JFK Board)

FROM: J. Barry Harrelson
DCI/CSI/HRG/JFK Project Officer

SUBJECT: ARRB Request for Access to Selected
Agency Histories

REFERENCE: ARRB Request for Additional Information
and Records No. CIA-7, dtd 8 Nov 1995

I. Background

In August 1996 with the concurrence of the Directorate Focal Points for the JFK Board, Jeremy Gunn, ARRB General Counsel, was given access to an inventory of Agency histories (item # 6 of reference) held by the CSI History Staff. He made a list of 61 histories which might possibly contain information of interest to the Board in its search for additional records relevant to the JFK assassination.

II. Request

The ARRB's request is for access to the selected histories to determine their relevancy or non-relevancy to the JFK assassination story. It is not a request to review the material for release. Access by the Board's staff will be limited to one or two members with appropriate clearances. Access to particularly sensitive material will be limited to Mr. Gunn and/or Mr. David Marwell, Executive Director of ARRB. The Board, Mr. Marwell, Mr. Gunn and their staff "CIA team" have TS/SCI clearances.

III. Procedures

1. An HRG reviewer will screen the 61 selected histories to determine if they have some substantive relationship or connection to the JFK assassination story (locations, time-frames, events, individuals, etc.).

a. If so, HRG will contact the Directorate Focal Point for the JFK Board* and request that a responsible component official review the selected history to determine the level of access that may be given the ARRB: (1) access to the table of contents; (2) access to selected pages/chapters, or, (3) access to the full history. If the history is viewed as too sensitive to

Administrative - Internal Use Only

be reviewed by the ARRB staff, the issue will be discussed with the Executive Director of the Board and/or the Chairman.

b. If HRG concludes that the history is not related to the assassination story, Mr. Gunn will be asked to refine his request or drop that particular history from his list. A certification by the Agency that the history contains no JFK assassination-related information may be required.

2. After review by the appropriate Agency component, the Directorate Focal Point will advise HRG of the approved level of access.

3. HRG will then advise Mr. Gunn of the level of access and make arrangements for him or a member of his staff to review the history in designated Agency offices as appropriate.

4. Notes taken by any ARRB member are subject to review by the responsible Agency component. If the ARRB member identifies a history or any part of it as having relevancy to the JFK assassination story, HRG will again review it to confirm the relevancy. The identification of relevant information in a history does not automatically make the history an assassination record under the JFK Act. Further discussion with the ARRB staff would be required to determine how that information will be dealt with and its possible release.

5. If you have any questions regarding this request, please call me on extension 31825 or Gary Breneman, extension 31839.

FROM: J. Barry Harrelson
JFK Project Officer, HRP/OIM

SUBJECT: CIA-7, Request to Review Histories

\ 1. This is in response to referent request.

2. The ARRB staff requested that it be permitted to review the histories of CIA activities and components which have been prepared over the years by, or under supervision of, the CIA History Staff for possible leads to Oswald/JFK assassination materials. CIA provided a list of all histories for review by the ARRB staff. From that list, certain histories were selected by the ARRB staff to be read either entirely or in part. Most of the selected histories turned out to have no information relating to the JFK assassination story. Those passages thought to have information related to the assassination were marked by ARRB staff for inclusion within the JFK collection and have been placed in the queue for processing and release to the National Archives.

3. This completes the Agency's action on this request. If you have any question, please advise.

From: Michelle Combs *Michelle Combs*

Subject: CIA-7 Histories

The CIA History Staff has written or guided the writing of numerous histories on projects, offices, divisions, or special events within the history of the CIA. In response to the Review Board's Request for Additional Records and Information CIA-7, the CIA provided an index to all the histories in the collection. This index was reviewed by former Executive Director T. Jeremy Gunn and more than sixty histories which might have contained information relevant to the assassination of President John F. Kennedy were selected for review by the Review Board staff. Due to the sensitivity and breath of information contained in the CIA histories, access was limited to two members of the Review Board staff.

Most of the reviewed histories did not contain information relevant to the assassination of President Kennedy. Sections of five histories were designated as assassination records: DCI-8, CS HP-334, MISC-25, DDO HP 324, and CSHP 194. These sections will be reviewed, processed, and placed in the JFK Collection at the National Archives.

The Review Board staff also reviewed the just published classified history, *Fifty Years of the CIA* which was published in honor of the CIA's Fiftieth Anniversary. This history contained no information believed relevant to the assassination.

25 September 1998

MEMORANDUM FOR: Bob Skwirot

FROM: Charles A. Briggs-Y-

OFFICE: DCI/CSI/HRG

SUBJECT: Mexico City Station History

REFERENCE:

The Mexico City Station History contains at least 99 separate cryptonyms, for the most part concerning projects, but in some cases, individuals, covering the period 1947 to June 1969. In every case, there is identifying information included with the crypt, ranging from a brief parenthetical phrase to several pages of detail. Since the information far exceeds that thought relevant to the JFK story, both in time and substance, an approach designed to provide a maximum amount of information and guidance for historians concerned with the JFK assassination, with a minimum of gratuitously useable leads for curious or hostile FOIA requestors concerning CIA activities generally, was chosen and is reflected in the version the Board has for consideration.

The norm in handling cryptonyms when the entire crypt is not released is to protect the digraph - the location indicator. What I've done here, to avoid unraveling, in effect, the whole history of Station activity for subsequent curiosity seekers, is to reverse the process, releasing the digraph and protecting the root - specifically because the text identifies each crypt. The Board is familiar with the decision to release almost all LI-crypts in full - while protecting identifying information. The major relevant LI projects (LIENVOY, LITEMPO, LICALLA, etc.) have had both the full cryptonym and most of the details released. ^{N4}

Station and Operation Directorate division histories are among the most sensitive documents in the Agency. They are very tightly controlled within the area divisions - they are not available to cleared employees in other directorates or, traditionally, outside of the division within the Operations Directorate. Thus concern about the release of the Mexico City History pages that, viewed through the widest of lenses, do not appear to be relevant to the JFK story, is very great.

**Re: Status of Assassination Records Review Board Requests to CIA for
Additional Information and Records**

Dear Barry:

I am writing to memorialize our conversation of October 1 regarding the status of Assassination Records Review Board requests for information and records from the CIA.

We discussed the following formal requests:

CIA-1 (Organization materials)

CIA has made records available to the Review Board. The Review Board staff will continue its review and make recommendations to the Board and will request further information, if necessary, from CIA. CIA needs to do nothing further at this time.

CIA-2-5 Complete

CIA-6 (Cables and dispatches)

CIA originally informed the Review Board staff that these materials could be made available by December, 1995. CIA now agrees to make the records available (or to have a response) by the first of November, 1996.

CIA-7 (Histories)

Mexico City. CIA has shown the Mexico City history to Gunn. CIA will compile the portion of the history that was shown to G. Robert Blakey,

Mr. Barry Harrelson
October 7, 1996
Page 2

which will be processed as an assassination record. Gunn will then determine whether there are any additional portions of the history that should be added to the Blakey version. CIA will compile the "Blakey version" as soon as possible and Gunn will promptly thereafter review the documents.

Index. CIA has made an index available to Review Board staff and the staff has identified certain histories that may be appropriate for review. CIA will make available those histories that are of obvious relevance, and will raise with Review Board staff any questions regarding the requests where the basis for the request is unclear. CIA will begin to make histories available on a rolling basis. Review Board has agreed to review histories promptly once they are made available. Although it was not discussed at our meeting, we would very much appreciate it if you would, within the next two weeks, identify which histories you are prepared to make available and those that CIA believes should be subject to further discussions.

Cram's multi-volume counterintelligence history. Although Cram's history was not specifically discussed at our meeting, the Review Board staff understands that the history has been located and the Review Board staff awaits its being made available.

CIA-8 (Intelligence community staff)

CIA will provide a report to the Review Board staff within two weeks.

CIA-9 (Publications and analytical materials)

The Review Board staff provided CIA with a list of certain publications as they appear in an LBJ Library finding aid. CIA will report back on recommended action to the Review Board promptly.

CIA-10 (Interagency source register)

CIA has compiled information responsive to the request. CIA will make records available within two weeks.

CIA-11 (Duran's original statement)

Mr. Barry Harrelson
October 7, 1996
Page 3

CIA has been unable to identify to date Duran's original statement. CIA will make some further attempts to locate it.

CIA-12 (JMWAVE materials)

CIA will begin to make materials available on a rolling basis.

Re: ARRB Request for Additional Information and Records No. CIA-7

Dear John:

Pursuant to its authority under the President John F. Kennedy Assassination Records Collection Act of 1992, the Assassination Records Review Board requests that the Central Intelligence Agency provide access to any and all internal CIA histories or retrospective studies or reports on the following topics:

1. The JMWAVE Station;
2. The Mexico City Station;
- ✓ 3. CIA activities with respect to Cuba covering the period October 1, 1962 to January 1, 1964;
4. Two CIA stations whose identities will be conveyed to you orally;
- ✓ 5. John McCone as Director of Central Intelligence.

In addition, we would like to request:

6. All indices to CIA histories held by the history staff of the Center for the Study of Intelligence.

This request should be interpreted in its broadest reasonable sense. To the extent that you question whether a particular type of study or report is encompassed by our request, please let us know and we can advise you whether we seek to include it.

Should any of these requests impose an unreasonable burden on you that we may not have anticipated, please advise us so that we can work with you to modify or amend the requests accordingly.

In requesting access to these materials, we are not designating them "assassination records" and we are not, at this time, requesting that copies be given to the Review Board.

Thank you for your attention to this matter.

Sincerely yours,
