Other Histories. No response has been received to our agreement that CIA identify within two weeks the histories that can be made available and those that should be subject to further discussions.

CIA-8 (Intelligence community staff)

CIA had promised to provide a report to the Review Board within two weeks. Nothing has been made available.

CIA-9 (Publications and analytical materials)

We have received no materials responsive to this request. Additionally, no response has been received from CIA regarding the list of publications that are identified in an LBJ Library finding aid that the Review Board staff provided.

CIA-10 (Interagency source register)

CIA has not yet made available the records that it had agreed to provide within two weeks. *(was Oswald on)*

CIA-11 (Duran's original statement)

CIA has agreed to make some further attempts to locate Duran's original statement.

CIA-12 (JMWAVE materials)

CIA has agreed to make materials available on a rolling basis.

Informal requests:

Spas Rankin. CIA has made the Spas Rankin file available to the Review Board. Review Board staff research continues. When research is complete, staff will discuss issues with CIA. *files from collection pulled / waiting*

ARRIS staff review
IN 23738. CIA is searching for cable number IN 23738 (7 July 1962). *- copy sent*

HTLINGUAL. It is the Review Board staff's understanding that CIA continues its search for HTLINGUAL records and will provide an oral briefing on the subject. It is also our understanding that some HTLINGUAL records have been located, but that they have not yet been made available to the Review Board.

Recent and additional informal requests that we have discussed with you:

Operational Reports for Cuban Exile Groups. The Review Board staff has been unable to locate in the collection monthly operational reports for the DRE, CRC, or MRR for the period between March 1963 and March 1964. Please advise us whether these records exist and when we may review them.

Moscow. CIA has been asked to search for additional information regarding Mosco as discussed with Michelle Combs on October 24, 1996.

Tape. CIA has been asked to search for additional information regarding a tape as discussed with Irene Marr on October 24, 1996.

Please let me know of any inaccuracies in this letter or any suggestions that you have. Thank you for your help and cooperation.

Sincerely,

T. Jeremy Gunn

Re: Status of CIA Responses to Assassination Records Review Board's Requests for
Additional Information and Records

Dear John:

I am writing to follow-up on our telephone call earlier today and to convey my serious concern about the status of CIA's responses to the Review Board's requests for additional information and records. Although CIA has completed its responses to several requests, and many others have been answered in part, a significant number of requests have not been answered — including some that were made more than two years ago. On many occasions we have been assured that responses would be forthcoming, only to have promised dates come and go without answers. It is now extremely important that these requests be answered promptly so that we may conduct a proper follow-up if necessary. The issues that we can now identify as being of the highest priority are identified in the text below by double asterisks (**)¹ and we request that they be answered within the next month. We request that the remaining requests be answered by April 1, 1998.

The remainder of this letter is divided into two parts: first, a listing of the formal requests for information and records, and second, a listing of the informal requests for information and records. Please let me know if your understanding of any of the following points differs from ours so that we can resolve any potential discrepancies.

¹As identified more fully below, the issues are: CIA-1 Organizational Material, CIA-6 Cables and Dispatches, CIA-13 Backchannel Communications, CIA-IR-03 HTLINGUAL Documents, CIA-IR-04 Disposition of Angleton Files, CIA-IR-07 Claude Barnes Capehart, CIA-IR-15 Electronic "take" from Mexico City, CIA-IR-21 DRE Monthly Operational Reports, CIA-IR-22 "A" Files on Clay Shaw and Jim Garrison.

Informal Requests

Each of the following informal requests was previously made to CIA. For future reference, they will be referred to by the "Informal Request" (IR) number provided below.

CIA-IR-01 Personnel Assigned to Post from 1959-64 (see RIF 104-10065-10199).

This request is complete.

CIA-IR-02 Location of Cable Identified in JFK 1993.07.20.10.18:29:650630.

This request is complete.

****CIA-IR-03 Full Computer Search for List of Documents in HTLINGUAL File.**

CIA agreed to undertake a computer run for all HTLINGUAL documents in April 1997. To date, no response has been received by ARRB. All computer searches for these documents should be documented in a formal letter for the record.

****CIA-IR-04 Disposition of Angleton's Files.**

The Review Board seeks to ensure that it has taken all reasonable steps to account for any files that James Jesus Angleton possessed or controlled that related to the assassination and to Lee Harvey Oswald. Because of the perceived controversy surrounding the disposition of Angleton's files, the Review Board believes it prudent to obtain a clear understanding of the types of files that he maintained and their ultimate disposition. (The Review Board does not seek to explore any subjects in Angleton's files beyond those that may have pertained to the assassination.) To date, CIA has made available certain documents provided by the CIC and the case files for *Mangold v. CIA*. The Review Board requests any additional information in the possession of CIA that would explain the disposition of Angleton's files.

In addition, the ARRB staff's review of the *Mangold v. CIA* files designated additional documents from those files as assassination records. These documents are: Tab D, documents Nos. 95, 109-116, 120, and 121; and from the Denied

(U) This memorandum is submitted in response to informal request number 03 (CIA IR #03) from the Assassination Records Review Board (ARRB).

**CIA-IR-03 Full Computer Search for List of Documents in HTLINGUAL File

(C) First, as an outcome of the Pike and Church Committees, all HTLINGUAL files were destroyed. Copies that may have been made and put into individual's files surface as the files are reviewed. The DO ran a search on the term "HTLINGUAL." Some records were identified as destroyed. Some were not so marked but are not locatable under the job number identified; however, given that there is no requirement to record destroyed records under the federal statutes for disposition programs and given limited resources for noting files destroyed, this is not uncommon. The HTLINGUAL search further identified files because of Freedom of Information Act queries; however, these were not HTLINGUAL files per se, but files which contained the FOIA requester queries for HTLINGUAL information.

The file contains copies of 215,870 letters and photographs of 2,705,726 covers (envelopes) of unopened letters which were intercepted during mailing to and from addresses in the U.S.S.R. and related indexes. The addresses were intelligence targets during the period of 1954 to 1976. Many of the originators and recipients of the mail to and from the target addresses were United States citizens.

Not included in this request for disposal are those copies of letters and photographs of covers which are at the present time the objects of Freedom of Information Act requests and Privacy Act requests, or those that are involved in litigation. Similarly files which document the initiation, implementation, and termination of this mail intercept project (those that may have historical value) will be retained in the CIA and be maintained in accordance with its approved records control schedule. Additionally, no disposal will occur prior to the review and concurrence of the Senate Select Committee on Intelligence.

Continued maintenance of the files covered by this disposal request conflicts with the provisions of the Privacy Act, 5 U.S.C. 552a (e)(1) and (7) as well as Section 5 (b)(4) of Executive Order 11905.

MEMORANDUM FOR THE RECORD

SUBJECT: Destruction of MHCHAOS and HTLINGUAL Project Files

REFS: A. OGC-90-50611 dated 19 Mar 90
B. Memo from MPG/IRMB dated 18 Dec 89

PARTICIPANTS:

 C/MPG
DC/MPG
C/IRMB
IRMB/IMS/IMO ASB
Kathy Stricker, DO/IRO
 DC/OSG
C/CFB
C/RRB
Lou Dube, RRB

ACTION:

OSG/RRB: a) Identify material for destruction
b) Recall material from Records Center
c) Review the material for destruction
d) Initiate destruction action by keying one transaction per document

DO/IRO: Respond to Reference A, OGC Memo

MPG/IPB: a) Identify independent electronic files in TSG
b) Perform SOFA search to identify MHCHAOS and HTLINGUAL files
c) Initiate a SPIN search to identify any existing MHCHAOS or HTLINGUAL information AFTER the initial processing of material

C/MPG: Document meeting and identify action points

IMS/IMO: a) Initiate action to identify electronic holdings of MHCHAOS and HTLINGUAL information
b) Identify and monitor disposition of MHCHAOS and HTLINGUAL digital information

MPG/PPB: Update procedures, notices, instructions, etc.

1. All information that established MHCHAOS and HTLINGUAL will be permanent retention. The material is stored in different places. It was agreed to run a SPIN search AFTER the material

CONFIDENTIAL

~~CONFIDENTIAL~~

was destroyed at Records Center to ensure identification of all MHCHAOS and HTLINGUAL materials. After the SPIN search is done, any MHCHAOS and HTLINGUAL material will be turned over to RRB for follow up review.

2. According to the IMS/IMO, five platter diskpacks on MHCHAOS are stored in TSG, Room GB0704 OHB. C/MPG noted that we need to research electronic holdings of TSG, both HTLINGUAL and MHCHAOS.

Destruction

3. Upon review of material for destruction, DRD transactions will be entered in the system for each document. It was suggested that the transactions be done individually which would be less risky than a blanket deletion.

4. The XXY symbol for MHCHAOS was used for name trace purposes. According to the IMS/IMO, 79 cubic feet of 201 files are in this category. Official 201 files are also in the other two MHCHAOS jobs that have not been processed. Any XXY material should have blank File Content Lists. If RRB identifies 201 files that are XXY and all the documents are in ALLSTAR, RRB must reconstitute the file.

5. The database will be updated after the records are destroyed and XXY and XXZ should be deactivated. Procedures should be updated.

Order of Destruction

6. HTLINGUAL material can be started on immediately. HTLINGUAL Production files are 1 1/2 cubic feet which will be pulled first. The bulk of HTLINGUAL material - 348 cubic feet - can be destroyed immediately without review. The remaining 50' are in five or six categories and needs to be reviewed, e.g., single microfilm copies stored in conserva files.

7. IRMB will turn over the MHCHAOS file inventory to RRB. When material is ready to be searched, RRB will notify IPB, who will search SOFA to identify files.

8. Pursuant to Reference A OGC memorandum, the DO/IRO should formally comply with OGC's request to determine if there are any outstanding FOIA or Privacy Act requests relating to MHCHAOS or HTLINGUAL that should not be destroyed.

MEMORANDUM FOR: Mr. William J. Allard
Associate General Counsel

FROM: [REDACTED]
DO/Information Review Officer

SUBJECT: Destruction of MHCHAOS and HTLINGUAL Records

1. With regards to the MHCHAOS records, it is my understanding that a Protective Order was placed on all MHCHAOS files in June 1976 due to their involvement in the Halkin vs. Helms Litigation. You advised that Mark Lynch, the attorney representing plaintiff in the case had recently narrowed the class action definition to include only those individuals cited in the case as plaintiffs. It was your belief that the protective order could be amended to permit destruction of all other ~~all~~ files in the MHCHAOS record system. Please undertake whatever action is required as soon as possible so that the DO may destroy records under an amended protective order. *not all*

2. In further discussion, you advised that the DO could proceed with the destruction of its HTLINGUAL records. Attached please find five copies of Form 141, each pertaining to a separate phase of the HTLINGUAL file system. Please include your concurrence with the destruction of these files by signing in block 12 on all copies.

MEMORANDUM

September 19, 1998

To: Laura Denk
Executive Director

cc: Bob Skwirot
CIA Team Leader

From: Michelle Combs 
Associate Director for Research and Review

Subject: CIA-IR-03 HTLINGUAL Records

The Review Board's Informal Request for Additional Records and Information asked the CIA to locate any extant records from the HTLINGUAL mail cover and mail opening project. Most of the HTLINGUAL files held by the Directorate of Operations were destroyed in 1990 at the order of the CIA's Office of the General Counsel. A memorandum for the record found in volume seven of Lee Harvey Oswald's Office of Security file states that the Office of Security destroyed its SRPOINTER/HTLINGUAL files in April 1994 in accordance with guidelines set forth in the Record's control schedule and the Office of General Counsel.

The Review Board staff examined an index, provided by the CIA, to the remaining HTLINGUAL records and marked folders for closer review. The Review Board staff reviewed the HTLINGUAL project files for 1955-1990. These project files consist of monthly statistical reports and administrative records. The more recent documents in the files pertain to law suits, court orders, or destruction records. These files were not designated as assassination records. The extant HTLINGUAL records for Lee Harvey Oswald and several project "soft" or working files are included in the CIA sequestered collection and have been processed as a part of that collection for inclusion in the JFK Collection at the National Archives. Additional HTLINGUAL documents were located in the archived files of the Deputy Director for Plans. Any documents relevant to the assassination were designated assassination records and will be processed for inclusion in the JFK Collection at the National Archives.
