**TKD COMMENTS ON THE SOVIET STATELESS PERSON'S IDENTITY DOCUMENT
(VID NA ZHITKL'STVO V SSSR Dlya LIT' RZG GRAZHDANSTVA)**

1. These comments are based on an analysis of 15 exemplars, (4 originals, 2 complete photocopies, 8 pages of a third photocopy and 2 pages each of the remaining photocopy exemplars), issued in seven (7) different areas of the Soviet Union between 11 January 1944 and 1 March 1950, and on limited documentation intelligence information.

Only two of these exemplars were issued in Moscow, the area of issuance in your case. No information is available on the use of this document in Minsk. Only three (3) of the available exemplars were issued after early 1957.

2. It is apparent therefore, that a thorough study of this document is not possible, especially as pertains to a specific area. However, certain general information does become clear and is presented in the following comments:

a. The document currently in use has a tan-colored stiff paper cover (card board type) and is approximately 85x122mm. The state seal on the front cover contains 11, 16 or 15 bands depending on the year (printing year). The seal and words VID NA ZHITKL'STVO V SSSR Dlya LIT' are printed in black ink; the words RZG GRAZHDANSTVA are in blue ink. The document contains 11 numbered pages plus the inside back cover. The undertint is a red, pink and blue repeat pattern done by the stencil process. The text is printed in black ink. The words RZG GRAZHDANSTVA are printed in blue ink from bottom to top of each page. Unlike the other two internal identity documents (PASPORT and VID NA ZHITKL'STVO Dlya Migranten) used in the Soviet Union no regulations or instructions are included in subject document. It contains everything included in the Soviet PASPORT plus additional information on the bearer, and apparently serves the same purpose. The bearers of subject document appear to be subjected to a more rigid control than normal PASPORT bearers.

This document is apparently used to control the so-called "stateless" (НЕГРАЖДАНСТВО) population of the Soviet Union. The term НЕГРАЖДАНСТВО as used here probably means "without Soviet citizenship" rather than the normal western meaning of the term "stateless".

b. For issuance of subject document or application is submitted to ОГРН, (Visa and Registration Section) or to РМО (Паспортно-регистрационный Отдел - Passport Registration Section) of the УИ (Управление Иммиграции) or УВД (Управление Внутренних дел). РМО executes ОГРН functions in those areas without an ОГРН. These organs are all subdivisions to the МВД (Ministry of Internal Affairs). ОГРН is responsible for the documentation control of all foreigners in the Soviet Union ex. esp. foreign officials. There are no available examples of subject document which reflect the reorganization of the МВД into МВДП (Ministries for the Protection of Public Order) which took place during August and September 1962.

c. Subject document is initially made valid for one (1) year. The number of extensions permitted is unknown, however, since the quarterly registrations average four (4) per page, pages 6 and 7 would be full within two years, thus permitting only one extension. The serial numbers of similar documents when given as basis of issuance also gives evidence to this theory. Finally, of the extensions which had been extended, none were extended more than once. The binder just register with ОГРН every three (3) months.

d. The number of examples precludes a final determination of the serial numbering system used in subject documents. It is possible that the block system is used, i.e. a block of 100 or 1000 pre-numbered documents with the corresponding five-numbered serial stamp might be supplied to ОГРН or РМО offices for issuance in their areas. These numbers would be supplemented with additional blocks when necessary. The fill-in of the document probably is made locally. All serial numbers are preceded by the letter "T" (significance unknown) and contains six (6) digits.

The serial number furnished by Mr. Duncan, 311479, of a Moscow issued VID NA ZNIVKI "STVO V SSSR DNEVNIK LIPE BIZ GRAZHDANSTVA in early 1960 cannot be accurately checked. The latest exemplar serial number issued in Moscow by "OVIR Upravli. Militsii gor. Moskvy i Moskovskoy obshchiny" (OVIR of the Moscow city and Moscow oblast Militia Administration) on 14 June 1955 is P No. 242266.

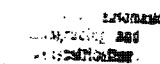

The bearer who reportedly retained this document until January 1962 while residing in Minsk would have had to register his document every three months and extend it in early 1961. The bearer's travel to Moscow in July 1961 should have been recorded on page 4 or 5 of his document, although just how rigidly the controls were exercised at that time cannot be determined.

It is recommended that this document, serial number 311479, be submitted to ESD/AB for a CI analysis.

e. The following are the contents of the 11 pages of subject document in the order they appear on each page:

- Page 1 - Validity; surname; first name and patronymic; issuance authority; photograph of bearer in lower left corner; serial number to right of photograph; authenticating cachet partially over photograph; and a line for bearer's signature. (some exemplars were not signed).
- Page 2 - Data on the bearer.
1. Date of birth (either year only or complete date).
 2. Place of birth.
 3. Nationality.
 4. Where and date bearer arrived in the USSR.
 5. Profession and type of work.

6. Family status.

7. Last citizenship.

A fiscal stamp bearing the document serial number is attached below these seven (7) questions. A validating signature of the chief of the militia administration usually appears to the right of the fiscal stamp. The same authenticating cachet used on page one (1) is affixed over fiscal stamp and signature. The date of issuance appears in the lower right corner and the serial number appears at the bottom of the page.

Page 3 - The name, age, relationship and document basis for inclusion of persons included in bearer's document are listed on this page.

Pages 4 and 5 - Have eight (8) spaces per page for entries, with validating signature and cachet plus the date, permitting the bearer to reside in a given area. The validating signature, at least in the Moscow issued exemplar is that of an OVIR official. Travel to other cities is also reflected here. Two (2) of the available exemplars show travel. In each case a residence permit entry is made before leaving on a trip. This entry includes a length of stay deadline. In one of these two exemplars, (the pre-World War II exemplar referred to above), another entry was made upon return to place of residence.

The serial number also appears at the bottom of page 5.

- Pages 6 and 7 - Are for quarterly registration entries. These entries indicate registration and date of next quarterly registration. Sometimes place of registration is included in the handwritten entry. All such registrations appear above the signature of an OVIR official or OVIR representative.
- Pages 8 and 9 - Are for normal militia or OVIR residence registrations and deregistrations.
- Pages 10 and 11 - - Are for "special remarks" including employment cachets, and document validity extension for one (1) year. These extensions are validated by OVIR.

The grumek appears at the bottom of page 11.

(Note: Some of these entries and cachets may appear on the wrong page.)
