DISPATCH		CLASSIFICATION SECRET/ TOP SECRET	DISPATCH SYMBOL AND NO. HMMA-15979 HMMA-1842
TO : Chief, WH Division INFO		HEADQUARTERS FILE NO. 50-6-74/1	
FROM : Chief of Station, Mexico City		DATE 18 November 1960	
SUBJECT - LIEMPTY Project Renewal		RE: "43-3" - (CHECK "X" ONE)	
		<input type="checkbox"/> MARKED FOR INDEXING	
		<input checked="" type="checkbox"/> NO INDEXING REQUIRED	
ACTION REQUIRED - Renewal of Project		INDEXING CAN BE JUDGED BY QUALIFIED HQ. DESK ONLY	
REFERENCE(S)			

Attached are the requisite number of copies of the Request for Renewal of Project LIEMPTY.

Willard C. Curtis
Willard C. CURTIS

16 November 1960

Attachment:

As stated above. (Even pages forwarded herewith)
(Odd pages under separate cover)

Distribution:

- 3 - WHD (with five copies of attachment)
- 2 - Files (with one copy of attachment)

1 Encl (apc)

RECORDS OFFICER STAMP

The following action is
authorized: *de-topok*

Signed:

R.O. #630 - Unit *WHH/R*

Note: If destruction, cite
reasons and coordinate
if appropriate.

CS COPY

SECRET ~~XXXXXXXXXX~~

-3-

GONZALEZ was finally identified and his Mexico City home and business addresses were ascertained. See HMMA-15626, 9 September 1960, for further details on this case.

b. The preliminary investigative work on a KUSODA case of priority interest was conducted by SCANTLING. During this investigation it was necessary for SCANTLING to travel to Aquascalientes, Guanajuato and Minatitlan to obtain the information required by Headquarters. See the attachments to HMMT-1416, 20 May 1960, for the results of the investigation.

4. In addition to his contributions to the above objectives, SCANTLING is used for miscellaneous support requirements of the Station. For example, SCANTLING handled several of Raymond H. GERENDE's (ps) operations while the latter was away from Mexico City during August and September 1960. Also, SCANTLING has been managing the LIJERSEY surveillance team since the departure of Simon D. CLACKETT in August 1960. It is hoped that SCANTLING can be relieved of this assignment as soon as the LITEMPO project is approved. SCANTLING has also been used to spot and rent safe houses for various Station operations, a valuable operational support service.

5. As stated in the preceeding Request for Project Renewal, although SCANTLING's LIEMPTY Project objectives can never be completely fulfilled, it is the Station's opinion that SCANTLING has made important and valuable contributions to LIEMPTY Project objectives specifically and to other Station activities in general. SCANTLING's production, measured against monetary expenditures, case officer time and other intangible factors, unquestionably justifies his continuation as an integral part of Project LIEMPTY.

B. Raymond H. GERENDE Segment (discussed in relation to project objectives):

1. "To collect operational information pertaining to LIMERICK personnel and physical facilities through use of photographic base houses." Together with their extensive photographic coverage of the LIMERICK target, the photographic bases also contribute other types of operational information:

a. LIMITED - This base compiles daily logs indicating all arrivals, departures and, where possible, identities of every person visiting or working at the LIMERICK target.

SECRET/~~XXXX~~

-4-

This information is particularly useful in keeping track of LIMERICK personnel and assisting with the identification of visitors to the installation. Also, LIMITED maintains a summary attendance list of LIMERICK employees on a daily basis; this enables the Station quickly to ascertain the presence or absence of an employee on any given day. Finally, one other significant service is performed by this base, the radio dispatching of the LIEMBRACE surveillance team on LIMERICK personnel and targets of opportunity. LIMITED's photographic coverage is still concentrated on visitors, as opposed to employees, to the LIMERICK installation. A recent example of the base's contributions to Station efforts is the case of Joseph Ralph MAURI. In this case, a LIENVOY lead indicated that an American might visit the LIMERICK target on a certain day. The base was alerted to dispatch the radio-controlled surveillance team on any person appearing to be an American. The results of this assignment were indicated in MEXI-6392 and several other cables. LIMITED was also able to provide photographs, which when compared with photographs provided by Headquarters, left no question as to MAURI's identity.

b. LILYRIC - This base's output of high-quality clandestine photographs has been in about the same quantity as last year. In addition, the base operator, LIEMPTY-14, prepares weekly reports on LIMERICK employees and their wives. LILYRIC also performs the assignment of noting and reporting the license plate numbers of all cars bringing visitors to the LIMERICK installation. LILYRIC photographs also are concentrated on visitors to the target, as opposed to employees. It should be noted that LILYRIC operates for photographic coverage during the hours from daylight to 1400 hours each day of the week except Sunday. The LIMITED base maintains photographic coverage from 1400 hours to darkness each day except Sunday.

c. LICALLA - As reported in previous correspondence, the LICALLA base contributes to the collection of operational information through photographic coverage of LIMERICK employees and their families. Also, the base operator,

SECRET/~~XXXX~~

SECRET/

-5-

LIEMPTY-9, supplies extremely worthwhile information pertaining to the apparent positions and jobs of the target employees. He accomplishes this objective by careful observation and analysis. LICALLA also maintains a daily attendance roster of all LIMERICK employees. LICALLA coverage of the target, both photographic and physical observations, enables the Station to keep abreast of LIMERICK personnel changes, a vital contribution to the Station's counter-espionage effort.

2. "To collect operational information and identify operational leads pertaining to Station targets of opportunity." The LIENTRAP operation, handled by GERENDE, is the major contributor to this objective. It has been possible for LIENTRAP to take photographs and to perform pretext investigations in support of numerous Station activities. The cases listed below are cited as examples:

a. In the case of Cesar GONZALEZ Sanchez (see I, A, 3, a, above) LIENTRAP was able to procure photographs of GONZALEZ at his Mexico City residence which, when compared to Headquarters provided photographs, left no doubt that GONZALEZ was the subject of interest to Headquarters.

b. LIENTRAP confirmed the identity of Olga CASTILLO de Ledon, a frequent visitor to the LIMERICK installation and an ardent supporter of the present Cuban regime, through a pretext investigation of the residents of an apartment building where CASTILLO was believed to live. Later, LIENTRAP supported the results of the investigation with excellent photographs of the subject.

3. "To provide operational support to Station operations, i. e., rent hotel rooms and apartments, and conduct counter-surveillances." GERENDE is used frequently to rent hotel rooms and apartments for other Station operations and activities. GERENDE's comprehensive area knowledge and personal operational capabilities combine to make him an extremely valuable Station asset for such support activities. GERENDE also procures post office box letter drops for the many Station operations requiring them.
