13-00000 CLASSIFICATION H SYMBOL AND NUMBER CONTINUATION OF DISPATCH SECRET HMMA - 39809 2. The LIEMERACES have surveilled____ __quite often, and only one unusual contact was noted. That was a three hour luncheon with an Argentine leftist, Maximo SIMPSON Grinberg, a foreign correspondent in Mexico for the magazine Medico Moderno. Generally speaking, leaves the Embassy during the working day alone on his errands, rather than with another Embassy employee, which is more often the rule with the other officers. usually goes with his wife on errands during the lunch hour or in the afternoon before returning to the Embassy. These errands are on personal business such as to the furniture store, super market, optics, doctor, etc; but also on business, such as to days are very long, as can be seen from the attached log. are very busy and have many contacts, they 3. While do not seem to make close personal friends, and the persons with whom they are in contact appear almost exclusively to be business contacts. The Station has been unable to locate any person who might make a good access agent to ______ None of the Station's agents mentioned in paragraph 6 of HMMA-38920 were close to The closest companion would be the Subject of 201-860095. The Station is reporting separately on its attempts to develop and recruit this person. 4. The Station has even considered approaching especially when it became known she was so unhappy with her lot as a servant. However, since the maid almost never leaves the apartment and she is virtually inaccessible, the Station has been unsuccessful in having any asset establish any degree of rapport with her, although a contact of LTTAINT-2 has been able to engage her in telephone contact and hopes to date her eventually. 5. Since the Station believes that is almost entirely dedicated to press affairs, and no really good access agents are in view. the Station will not make a priority effort to develop an entre into circle except via the operation now underway to recruit 201-860095. If this operation is successful, the Station would have an excellent asset in frequent contact with for a better personal assessment and assignment Until this information or type of information becomes available, however, the Station believes it has identified role as almost purely to detect any vulnerability data on either role as almost purely press, and we have been unable or his wife.
