	12	Yes. That is what our evidence says, the summary

•	14	available in 1963. And there have been some minor changes in
	15	some of the details of this summary, very minor changes.

and cliphers, and in the process, you obviously work up 1 some people who are able to do this kind of work, which is 2 quite different from the normal life style of most of us. 3 Mr. Harvey had been a very venturesome officer in the 4 past. He was responsible for the Berlin tunnel. And he was 5 sent down to take this job. And he assumed as part of it the 6 capability of -- he was given by Mr. Bissel this chore of 7 carrying on this particular operation as well. 8 Mr. Schwarz. Had he been the person who had, in 9 connection with the abortive effort to kill Mr. Lmumba, 10 hired an agent for that purpose? 11 Mr. Colby. I have forgotten whether hehired him. He t(B)12 hired a foreigner. And this foreigner's job - - our recon 13 indicate that this foreigner s sjob was tired not with the 14 EVen of code rooms and the safe cracking, and things of this 15 for that purpose. And there are some very obscure 16 references that an additional assignment was to look into the 17 possible assassination of Mr. Lmumba. The evidence is 18 that he went down to what is now Kinshasa, Elizabethville in 19 1960, stayed there a few weeks, and left in October, I 20 believe. And then Mr. Lmumba was killed thereafter in a totally 21 separate set of circumstances in which we had nothing to do. 22 There is some indication that a CIA officer who was asked 23 to have something to do with this particular job said he did 24 not want to do it. 25

17	Mr. Colby. That was the Angleton case, Mr. Chairman, and
18	the facts of that case were that I had had some professional
19	differences in the organization with Mr. Angleton as to the
20	way the counterintelligence business was run and the way the 1(b-)

Chinese Communists subsequently blamed the Chinese Nationalists and the US for sabotaging the aircraft. The aircraft employee had fled to Taiwan. We had nothing to do with that incident and frankly heard about it after it occurred.

In the fall of 1956, a senior Chinese Nationalist official informed an officer of CIA that a Chinese National planned to assassinate Chou En Lai during his visit to Cambodia in November '56 and had been thwarted by the Cambodian arrest of the Chinese Nationalist officer sent to Phnom Penh to supervise the attempt. We learned of this after it had happened and we had nothing to do with it.

We bad a relationship with the

These are two that were separate.

Also I was asked to look at the photographs of Howard Hunt and Sturgis that appeared in Newsweek some years ago. We obtained this photograph from the FBI last night about 5 o'clock. We had not had it before. We had a copy of the Newsweek edition.

These are photographs of Howard Hunt in 1949, 1950 and 1961. This is the only photograph we have of Mr. Sturgis. It is taken out of the Newsweek.

We have had no connection with Mr. Sturgis and so we have

Mr. Harvey was given the responsibility of this by Mr. Bissel and originally it continued as a separate action from the Castro operation, but Mr. Harvey was also given that responsibility, and for all intents and purposes they became wedded.

Mr. Helms was the person who formally approved ZR Rifle as a project. ZR Rifle had a dual purpose that has not been clarified by our inquiry. It apparently was in fact used for 10 the stated purposes, as far as organizational activities went 11 along, which was to steal codes, and Mr. Helms, when he 12 approved the project, authorized accounting on certification, 13 which meant that rather than the usual vouchers supporting 14 expanditures, that the officer involved would simply certify 15 that the money had been spent and this would be accepted. 16 It had a project amount of some dollars, \$7500 - \$10,000 --17 some of it to include the salary of an agent, some to include 18 operating expenses.

So Mr. Helms' main appearance in the approval of ZR Rifle does not necessarily equate with the date when he became familiar with the Castro operation.

Mr. Schwarz. Because of the dual purpose of Rifle, Rifle means both, rifle files and used rifles?

Mr. Breckinridge. It may mean either or both. Mr. Colby. It is supposed to disassociate but sometimes TOP SECRET

2	Now, in the lifestyle at the time, not mentioning the second

12	Senator Hart of Colorado. Precisely. I think it is too

14	Mr. Colby. No. For a capability of that nature, it is
15	largely a staff operation. In other words, you use your own

Chairman Church. Before you do, would you just explain exactly what the relationship between CIA and Giancana and Maheu was because that is not clear in my mind.

Would you develop for the Committee that whole relationship?

Mr. Breckinridge. Robert Maheu used to work for the FBI and he resigned from the FBI and opened a private investigative firm here in Washington and CIA used him from time to time for certain kinds of support activities.

Chairman Church. What kind of support activities? Mr. Breckinridge. On one occasion he obtained a female companion 1. B

Chairman Church. What other kind of support? Mr. Breckinridge. In the early days -- and this becomes an embarrassment: As nearly as I can reconstruct, the people who knew him decided to put him on a retainer in the Office of Security, which they did for awhile, until he was so successful he said he no longer needed the retainer, which he didn't do much to earn. He later got involved representing one of the Greek shipping interests and we were given the results of some of the information that he obtained from that where there was a fight between Niarchos and Onassis. We think he may have had some involvement in another companionship when he was in this country. I don't have the details. I think we can probably reconstruct it for you.
