④ memo for the record as Nov 1963 by Birch P. O'Neal

A 9:10 A.M. Papish called & and stated that he wanted to be sure we didn't have any additional information concerning Ruby. "I advised him that I had checked our records, including files, and on the basis of the information we had concerning Subject which had been provided by him (24 November) we have no information relating to him."

A 9:20 Papish called again & said after search at FBI "there was no indication that he has been out of the United States or that he is a member of any particular political or subversive group. He stated that there was some indication that he may have been in Cuba in 1959 while we still had an embassy there, and there was some information that he allegedly visited a night club. Mr. Papish pointed out, however, that this would have been entirely consistent with his known activities in the night club business. He said that the possibility of his being in Cuba should be considered with a "big question mark."

"I reminded Papish that we had checked through the Immigration ~~and~~ Service on the tourist card record in the Mexican Immigration in Nuevo Laredo and that we had had a response that they were unable to develop any information concerning his departure on ~~the~~ 26 September and re-entry on 3 October 1961.

Mr. Parish stated that the Bureau was looking into this matter and would keep me informed. I indicated that I would not press the matter further with the Customs Service. He is to keep us informed."
