5 Sought in Connection With King, JFK Assassinations

WASHINGTON (AP) — The House Select Committee on Assassinations released some photographs and composite drawings yesterday in the hope that citizen recognition of them might shed additional light on the assassinations of President John F. Kennedy and Dr. Martin Luther King Jr.

The material released included:

—A photo the committee said was taken in Dealey Plaza, Dallas, on Nov. 22, 1963, moments after Kennedy was shot. The blurred photo shows a dark-haired man who appears to be seated on a curb.

—Photos of two men who may have been in Mexico City in the fall of 1963 when Lee Harvey Oswald, the man the Warren Commission determined shot President Kennedy, was there. These photos also are blurred.

—A drawing of a man the committee said reportedly represented himself as a member of the U.S. intelligence community in the 1960s and who on occasion used the name "Maurice Bishop."

—A sketch of a man, "with the first name 'Ralph' who allegedly was in Atlanta in 1967 or early 1968."

The committee gave no further

details of the photos and drawings.

"It should not be assumed that this release means the committee believes the persons in the photos and sketches were involved in the assassination of President Kennedy or Dr. King," the committee said in a statement. "The committee is, however, interested in obtaining their identity and whereabouts so it can contact them."

It asked that anyone having information about the men to contact

the committee by mail, not by telephone.

"The letter should identify the sender by name, address and phone number, and it should list the name, address and phone number of the person identified, plus another picture of him if one is available," the statement said.

Letters should be sent to House Select Committee on Assassinations, Washington, D.C. 20515.
