Subject: It is that time again
The scif is a bit cluttered and with the board meeting coming up people need table space to work. If you are a person who has their papers spread out over one, two, or more work areas PLEASE straighten up your materials 1. so others have a place to work and 2. so documents are not misplaced.I have cleaned out the cubby holes of all the board meeting minutes and notes, so feel free to use this available space. You can even label your own cubby hole if you want. Also, don't forget about the aisle your team has been assigned. This is also a place to house your documents.Thank you very much for your cooperation.
