**Subject:** A big Thank You  
to Tracy for cleaning the refrigerator. It was unnecessarily filthy and disgusting. Please remember the fact that you share that refrigerator with many people. Do not leave food in there to rot. Make sure everything is in a leak-proof container, fruits and veggies in plastic bags. If you spill, clean it up before it hardens and has to be scraped up with a knife. It is not fair to expect someone else to clean for you.
