Subject: Intern projects??

Here's the deal on the interns. They are coming here the week of April 7-11; they would like to work with us on the 7-9. There are eleven students, and at three days, that means I need about 33 person-days of work. Currently, Dave Montague and I have two projects that entail a total of about 16 person-days work. So I need 17 more person-days worth of work. (Example: a project that would take three people two days to complete is six person hours.) Due to their teacher's connection to Cong. Burton, it is in our interest to continue doing favors for them and keeping them happy. In other words, finding projects might be considered a priority. So, please help me out. Non-classed projects that need warm bodies to do, but are a little on the "grunt work" side are what I have in mind. Cathy, you once mentioned some copying??? What about that? Anybody else, I really need help here. Whatever you can do is helpful to me. Thank you.
