Subject: Kitchen

Body: I threw away the rotten green and white (formerly red) grapes left in the refrigerator. The stinky mess is still in the freezer. There is a dirty plate and fork in the sink. For several days there have been refrigerator dishes left on the counter and/or sink - one containing leftover fruit? PLEASE USE, NOT ABUSE, THE KITCHEN. Your carelessness is unfair to the majority of us who try to do our part to make the kitchen a nice place to visit.
