**Subject:** Many Apologies...  
Much as it sometimes takes a certain gazillionaire software developer a few releases of a product to get it right, here's the copy of the final report template that I should have sent before. Just detach it into c:\office\wpwin\template and it will replace the old version so long as none of the documents you're currently working on are using the old template. Sorry for the inconvenience and, as always, let me know if you're befuddled.
