Subject: Agency contacts /issues
I have some concerns about the recent pattern of agency contacts and related matters and the extent of prior notice or consultations with everyone who needs to know about them I would very much like to talk with you about this soon and with Jeremy as well. My goal is that we avoid any potential problems or misunderstandings, possible duplication of effort, ensure we're all on the same page for the future, and take advantage of our collective knowledge in our work. Thanks!
