Subject: walk-thru

I spoke with Judy Blackwell about the walk-thru and she will have Pete Barrett or one of the Bell Atlantic technicians be here at 1:00 on Thursday. However, she mentioned that the contract with Bell Atlantic states that they are not responsible for any broken ceiling tiles. I checked, and she's right. She is also double checking the wiring date. She only was aware that it was scheduled to begin sometime next week, not necessarily Monday. She also said it would take several (3 or so) days to complete the wiring. So she'll let us know the date for moving the equipment once the wiring begins. Right now I think we have 8 lines. Will this be enough for us to atleast get started with the new system? She thought so, but didn't really know what we're were doing so couldn't say for sure. I'll call Andrew and let him know we're set for Thursday. Anything else I was supposed to tell him?
