**Body:** I am continuing my search for the real Jack Ruby. The Kantor book draws real connections between Ruby and the mob. He also specifically says that the Warren Commission got Ruby's entrance to the basement of the DPD wrong, and that Ruby definitely had some inside help. The FBI files I have looked at don't give us much. They are generally uncorroborated allegations of Ruby sightings in connection with one or another radical organization, or Ruby and Oswald sightings. If Jack Ruby was running guns or narcotics, the official organizations seem not to have known about it. We do know that Jack Ruby was in deep financial trouble, and that he signed over power of attorney earlier in the week of the assassination. Also as the HSCA reports, his long distance phone activity increased dramatically in November of '63, and only a portion of these calls can be attributed to his labor problems. All of the 135s have been highlighted, and are ready for further review.
