Subject: disk space

What was ever decided with this? To: David Marwell/ARRBcc: Tracy Shycoff/ARRB, Valerie Trzaska-Sails/ARRB

out of 2 gigs we have about 500 meg left. It is spread over the three volumes. I would like to have us order a
2gig drive to add to the 1 gig we have for data storage. I estimate the cost at \$2,600 but it could be less.This
space is not the same space as the notes server has, in fact the rate of increase should slow as we move more
things to notes, so this drive should hold us for awhile and we will need to purchase storage for the notes
server at some time down the road. By then prices will fall even more.Let me know what you think.
