Subject:	Summary of key issues for privacy briefing
Body:	FYI, on the "g" drive at "prkeyis.wpd" is an outline for the privacy briefing. The text I am drafting will provide an overview of how privacy issues are treated in various disciplines/statutes. Per Jeremy's and my consultation, the discussion of various categories of records will follow this outline, with background material described in sections of the text and examples provided either in the briefing book (if released) or in our meeting (if still withheld). Jeremy's made the selection of documents for illustration and will lead that part of the discussion based on his familiarity with the range of issues found in the materials he's seen so far.
