**Subject:** WordPerfect 6.1: automatic capitalization of words after punctuation  
Author: Laura Denk/ARRB Composed: 11:23 AM TodaySubject: WordPerfect 6.1: automatic capitalization of words after punctuationCategory: -----  
-----Anytime I am working in WordPerfect 6.1 and I use end of sentence punctuation (including periods, exclamation points, question marks, and end of brackets or parentheses), WordPerfect 6.1 automatically capitalizes the next word. Often, I do not want the next word capitalized. Is this function some sort of default setting that I can turn off?
