Subject: Lexis passwords, etc
The two passwords we are assigned for the next 30 days are "x0t0p9n" and "9cfppkdk". The first one is already configured on my computer to login automatically when the lexis icon is clicked on. I've passed this info to Chet as well. Let me know if and when you want to get onto my machine to check it out until your machines are set up too. I've alerted Chet to the issue of the system freezing up when we tried to download to a disk. He's going to tackle it on Wednesday. Meanwhile, we should play as much as we can while its affordable!
