**Subject:** Security and cards

When I attempted to enter the facility this morning at 6:05, the card did not work for the inner-door. I waited for about twenty minutes as I considered telephoning you. Based upon an earlier experience and your recommendation at that time, I "opened" the double doors -- which set off the alarm. I turned the alarm off -- although I had problems getting the double doors to close. The security guard came up, and I explained what had happened. Tom arrived about an hour later. His card worked for the inner door.
