Subject: Recommended book

Body: I recommend we obtain for our library a copy of the book The U.S. Intelligence Community, by Jeffrey Richelson, c 1985, Ballinger Pub. Co. In addition to being a wealthy source of information about the DIA, the book has a good overview of the whole community. I only skimmed the other sections of the book, but I believe it might be very accurate and in-depth, as I noticed several things in it that I know to be highly classified regarding other areas of US defense intelligence. Should we try and obtain it (as an agency) from the Naval Library, or should we try and get it elsewhere? (I haven't noticed it at the Library of Congress.)
