Subject: Investigator candidate
Lee Coykendall called me yesterday to withdraw her name from any consideration for a position with the ARRB. She said that after reading the materials I sent her she knows it would be a full time position in reality, even if it were offered as a part time basis, and that while the challenge and opportunity of the investigation intrigues her greatly, she cannot make a full time committment at this time because of her family. I asked her to keep us in mind should her situation change, she agreed to do so. She was not able to suggest any other candidates for the position.
