Subject: New Orleans and Louisiana state agencies

It makes sense at this time for us to contact, by letter, the various entities in local, county and state government who may have assassination related records. Do you want me to draft a letter, similar to the letter to Harry Connick, for your signature, to go out early next week?Also, I learned from the New Orleans Library Archivist, Wayne Everarb, that the New Orleans Coroner, Dr. Minyard, has taken back custody of David Ferrie's autopsy report from the archives, although with the stated intent to return the report to the archives. In the event the autopsy report has not been returned to the Library/Archives by the time they turn their documents over to us, do you think it constitutes an assassination record and should we make a separate request to the Coroner's Office?Do I have the power to take sworn statements yet?
