Subject: Robert Groden's video

Gus Russo had a copy of Groden's 1993 video "JFK - The Case for Conspiracy." Do we have it in our collection? If so, may I borrow it to view it? If not, do you sense any interest in obtaining it (I want to see if he says anything in it about how he obtained the photos, etc.) I have the address of the video production company.

Body: My guess is that it's Groden's in-house operation from the way the address appears.
