Subject: Treasury department stuff
Dennis: I'm sure you've already thought of many of these; besides, my areas of concern/study don't have a lot to do with Treasury. However, here goes nothing.1) Customs Check all customs records from Miami, Fort Lauderdale, Key West, and New Orleans from 1959-1964, for references to anti-Castro activity by the CIA or exile groups (list of watch names can be provided upon request). With all that the CIA was doing, and especially given that JFK cracked down on raids after the Missile Crisis, there has to have been at least a few slips where Customs caught them.2) Secret Service I would like to see if there are any warnings out (or watches) for Oswald for the Dallas trip. Also, I would like to see records of the preparation for the Miami/Tampa trip of November 18-19, 1963; who was the Secret Service keeping its eyes on while the president was in Florida? Any names that would be associated with CIA/JMWAVE?3) Alcohol,Tobacco, Firearms See if there are any records on gun-running activities in New Orleans, Miami/Everglades, or even operations ATF was aware of in Central America. I'd like to know just how much "turning a blind eye" was going on regarding the anti-Castro stuff.I hope this gives you some ideas. If any of this is good, let me know and I will elaborate/give you a list of names.
