Subject: Legal priorities
In my judgment, there are four important and time-sensitive legal matters that need to be brought to the Board's attention: 1. compliance with the Sunshine Act; 2. voting procedures; 3. duties and obligations of the ARRB under the JFK Act; and 4. legal guidance on the interpretation of postponements (to the extent provided by the JFK Act and its legislative history). Because I see these issues as immediately important and relevant for the Board's activities, I will do my best to have memoranda (and proposed procedures) on these topics available by the next Board meeting on June 6-7.
