**Subject:** Steve Tilley's response  
In response to my addressing your question to him, Steve indicated that he had not -- as of about noon today -- contacted the Legislative Archives folks down here about pulling your two RIFs. He said he would contact them and ask them to pull the documents "the first chance they get." I inferred that he would make that call today. Feeling a little defensive, perhaps, Steve asked whether or not you had yet looked at the materials he had previously arranged to have pulled for you. On that subject, I pled ignorance.
