Subject:	Tickler system for outgoing investigative correspondence
Body:	As we talked about today Chet I would appreciate it if you could create a "tickler field" for me to use in outgoing correspondence so I can better monitor the responses I get to requests for information and records. You mentioned you could write a macro with a default field for 10 or 20 days that would send me an email at the end of that time period after the correspondence was mailed. (Please add a field for 30 days as well if possible.) I would like to apply to any correspondence I send with my name as well as with correspondence I draft for David's signature that is investigations oriented.Thanks very much!!
