Subject: re: Gum Shoe, Issue #35
Please read this when you get a chance. With your approval I'll draft our now-standard letter of introduction to each of the three entities mentioned in the issue for their assistance in locating assassination records. Also - either ASIS or IACP, both of which have active chapters around the country, would be good forums for Board members to give luncheon meeting speeches, etc. I would be happy to contact each group to get their chapter listings if you'd like.
