Subject: 1) Vacation Accrual and, 2) TSP
Neither of these items are crises, but: 1) David and Eric inform me that my four years of previous service on the Hill should entitle me to 6 hours of earned vacation time each pay period, rather than 4. If this is so, is there anything I need to do to put that in motion (and, if it is the case, will it be retroactive to my start date)? 2) My TSP deduction has not yet appeared on my pay stub... which is OK as long as it doesn't indicate that it won't be appearing at some point. Do you have any rough idea when I can expect to see my TSP contribution reflected in my pay stub and (alas) take-home pay? Thank you!
