Subject: Secret Service Trip Reports
Joan has been reviewing SS trip reports and has given me lists of non-federal public safety organizations that provided backup assistance on each trip. We have no particular indication that HSCA ever contacted the various law enforcement and fire/rescue organizations mentioned. I've talked to Joe about this, and he said that while searching for other, related records he has not found any traces of HSCA making such contacts. Question: Would any records created by the Miami Fire Department, for example, on JFK's trip to the Miami Orange Bowl be considered an assassination record, and should I pursue the sources Joan and I have identified to date?
