Subject: Reeves Morgan and contact w/FBI
Reeves Morgan, the State Rep. in Clinton, testified at the Shaw trial that he told the FBI about seeing Oswald in Clinton. Do you know if the FBI has ever confirmed/denied/acknowledged this alleged contact? Garrison's people tried to find out in 1968, for fear that what he told the FBI might be different than what he told Garrison, thereby leaving the prosecution open to devastating cross-examination at the trial (Garrison assumed the FBI would share whatever reports they had with the defense). Apparently, the FBI replied to Garrison's inquiry with a non-answer letter in March of '68. Not a biggie; just asking if you know off the top of your heads.
